SMART LIGHTING AND CLOUD CONTROL SYSTEM SOLUTION PROVIDER

Product Brochure 2023

EXC Stock Code: 300889

The logo for EXC, featuring the letters 'EXC' in a bold, italicized, red sans-serif font. A registered trademark symbol (®) is positioned at the top right of the 'C'.

Stock code: 300889

Smart Lighting and Cloud Control
System Solution Provider

Company Profile

Shenzhen EXC-LED Technology Co., Ltd., established in September 2009, is a national high-tech enterprise integrating LED intelligent lighting products, smart city management and control cloud platform design, research and development, production, sales and service. Devote to providing leading technology, stable and reliable integrated solutions for intelligent lighting and IoT control systems to global customers. After ten years of arduous struggle, the company has developed into a leading enterprise in the field of intelligent lighting, and was successfully listed on the Shenzhen Growth Enterprise Market in September 2020 (stock code: 300889). It is the first listed company in the domestic intelligent landscape lighting industry.

Over the years, Exc has always adhered to technological innovation, participated in the drafting of a number of national and local industry standards. The company has a laboratory certified by China National Accreditation Service for Conformity Assessment (CNAS), and has won the "Guangdong Provincial Industrial Design Center", "Guangdong Provincial Landscape LED Lamp Engineering Technology Research Center"; obtained nearly 400 invention patents including software works, utility models and other patents. The company has an intelligent research institute in Nanshan District, Shenzhen. After years of research and development, Exc achieved a smart IoT comprehensive management and control cloud platform based on smart IoT control technology which is applied to smart cities such as smart road lighting, smart cultural tourism, smart lighting, and smart operation and maintenance. In the field, the comprehensive smart management and control cloud platform is advanced in the lighting industry, and has been successfully applied to many national key projects.

 Established in September 2009
GEM listing in September 2020

 Registered capital: 156 million CNY

 Shenzhen: 40,000m² of modern production base
Jiangmen: Planned to add about 100,000 m² factory buildings

Company Culture

EXC Vision:

Create a hundreds years technology company with tech leading and good reputation.

EXC Mission:

Create top security and intelligent product and service for customer in the field of optoelectronics and new energy.

EXC Value:

Diligence, Quick action, loyalty, friendliness

EXC Philosophy:

Long term passion, high responsibility, continuous innovation, empower customers!

Top talents gathering, actively competition, value creating together, achievement share!

EXC Final Target:

None defect of Quality, None complaint of Service, None delay of Delivery.

History

2009 EXC-LED was established.

2010 Applied the single-line control technology to outdoor projects of a large scale for the first time.

2011 Completed the research on the new-generation graphic heteromorphic display and mapping technology and successfully applied it.

2012 Developed the intelligent pixel density switching image processing technology and successfully applied it.

2013 Completed the Guinness World Record light show project - Nanchang "One River and Two Banks"; completed the research and development of the new-generation pixel display DMX driver chips.

2014 Established the Intelligent Control R&D Center and the Reliability Laboratory.

2015 Completed the Wuhan "Two Rivers and Four Banks" Project; established the Outdoor Lighting Optical Research Center and the Optical Laboratory.

2016 Completed the G20 Summit in Hangzhou - Qianjiang New Town Themed Lighting Project, in which the 4G city cluster lighting control system was applied for the first time; recognized as a national high-tech enterprise.

2017 Completed projects including the themed lighting for the BRICS Summit in Xiamen, Guangzhou "One River, Two Banks and Three Belts", Fuzhou Minjiang River Banks, etc.; granted the software copyright of the Intelligent City Outdoor Lighting Management System.

2018 Completed projects including the themed lighting for the SCO Summit in Qingdao, the 40th Anniversary Celebrations of Shenzhen Reform and Opening up and the Themed Light Show; granted the invention patent for the LED City Building Facade Cluster Lighting Internet Control System and Production Process Method, and launched the industry-leading EXC ECCP2.0 Cloud Control Platform.

2019 As a dual core supplier of outdoor lighting intelligent cloud control and lighting products, successively completed lighting projects for major sports events such as the 7th CISM Military World Games in Wuhan, the 2nd Youth Games of the People's Republic of China in Taiyuan, and the National Minority Games in Zhengzhou; in addition, participated in large-scale lighting projects in Beijing, Urumqi, Changsha, Guangzhou, Yantai and other cities for the 70th anniversary of the National Day.

2020 Launched EXC-ECCP4.0 smart cloud control platform; successfully listed on the Shenzhen Stock Exchange's Growth Enterprise Market in September, becoming the first listed company in the field of smart landscape lighting.

2021 Jiangmen Smart Factory is fully under construction; increase capital investment in the Smart Research Institute to open a new era in business areas such as smart landscape lighting, smart road lighting, and smart lighting.

2022 EXC-ECCP5.0 smart lighting cloud platform was renamed "Hetu" smart lighting cloud control platform; EXC smart cloud cabinet was officially released.

2023 More events ongoing...

Qualifications and honors

ISO9001 Quality Management System Certification

ISO14001 Environmental Management System Certification Certificate

ISO45001 Occupational Health and Safety Management System Certification Certificate

CB certification for Linear Light

The 7th CISM Military World Games in Wuhan

The SCO Summit in Qingdao

The BRICS Summit in Xiamen

The G20 Summit in Hangzhou

Main product and control system supplier of themed light shows of the core areas in the main venues for the four major international conferences

CE certification for Pixel Light

CE certification for Flood Light

CE certification for Linear Light

CE certification for Wall Washer Light

The Guinness World Record light show

Wenzhou Oujiang River Banks, and Nanchang "One River, Two Banks"

ROHS certification for Pixel Light

ROHS certification for Flood Light

ROHS certification for Linear Light

ROHS certification for Wall Washer Light

China Illuminating Engineering Society Lighting Award – First Prize Light Show

Shenzhen Futian (Related Areas), and Wenzhou Oujiang River Banks

EXC honors

Overall lighting of provincial cities

2019: The major supplier of outdoor lighting smart cloud control systems and products for the 7th CISM Military World Games in Wuhan.
 2018: The major supplier of themed lighting control systems and products for the SCO Summit in Qingdao.
 2017: The major supplier of themed lighting products for the BRICS Summit in Xiamen.
 2016: The major supplier of themed lighting control systems and products for the G20 Summit in Hangzhou.

2013: Nearly 1.3 million point light sources for Nanchang "One River and Two Banks" project.
 2015: Nearly 1.4 million point light sources for Wuhan "Two Rivers and Four Banks".
 2016: Control systems and nearly 800,000 point light sources for Jiangbeizui CBD Cluster and Grand Theater in Chongqing.
 2016: Control systems and nearly 500,000 point light sources for Changsha "One River and Two Banks" project.
 2016: Control systems and nearly 1.2 million point light sources along the Haikou Bay in Haikou.

2016: Control systems and nearly 800,000 point light sources for lighting of Xi'an High-tech Zone.
 2016: The major supplier of control systems and products for Changchun Downtown Lighting.
 2016: The major supplier of control systems and products for Hohhot Downtown Lighting.
 2017: Control systems and nearly 500,000 point light sources for Fuzhou "One River and Two Banks" project.
 2017: Control systems and nearly 400,000 point light sources for the 13th National Student Sports Games in Tianjin.

2017: The major supplier of control systems and products for Nanjing Downtown Lighting.
 2017: Nearly 1.2 million point light sources for Kunming Downtown Lighting.
 2017: Nearly 500,000 point light sources for Guiyang Downtown Lighting.
 2017: The major supplier of control systems and products for Chengdu Hi-tech Zone Lighting
 2017: The major supplier of control systems and products for Ji'nan "One Ring and One Lake" Lighting

2017: The major supplier of products for Guangzhou Pearl River Banks Lighting.
 2018: The major supplier of control systems and products for the celebration for the 40th Anniversary of China's Reform and Opening-up in Shenzhen.
 2018: The major supplier of control systems and products for Urumqi Nightscape Lighting.
 2018: The major supplier of control systems and products for Guangxi Nanning "Yongjiang River Banks" Nightscape Lighting.
 2019: The major supplier of control systems and products for Overall City Lighting for the National Minority Games in Zhengzhou.

2019: Nightscape lighting of Chaoyang District, Wangjing District, Zhongguancun, Tongzhou Xinhua Avenue and Airport Express in Beijing
 2019: Nightscape lighting of Downtown Area, and East and West Banks of Changfeng Fenhe River Scenic Spot for the 2nd Youth Games of the People's Republic of China in Taiyuan.
 2019: Sanjiang Lighting Project in Chongqing, Hechuan.
 2019: Fuzhou Downtown Lighting and Nightscape Lighting Project.
 2019: Guangzhou Aoyuan Area and Huangpu Lighting Project

2019: Xinjiang Urumqi Lighting Project.
 2019: Harbin landscape lighting comprehensive upgrade project.
 2019: Chengdu World Police Conference City Overall Lighting project.
 2019: Lighting of New Chongxian Town of Yuhang District and the north side of Ouhai Avenue of Zhenan Sic-tech Town in Hangzhou
 2019: 2019: Lighting of Nanfei River Downtown Area, Shushan District and Wushidun in Hefei.

2019: the project of nightscape lighting facility access control system for the "Five Longitudinal and Five Horizontal" main roads in the downtown area of Changsha City.
 2020: The main provider of control systems and products for the Yueguang Economic Complex Project in Ningbo Southern Business District.
 2020: The main provider of landscape lighting control systems and products in the main urban area of Kunming.
 2020: The main provider of intelligent lighting project control system and products for Urumqi Cultural Center.
 2020: The main provider of floodlighting engineering control system and products for Yinchuan Greenland Centre.

2020: The main provider of lighting control system and products in Dunzhu Financial City, Lhasa.
 2020: The main provider of lighting control system and products in Xining Central Plaza.
 2021: The main provider of outdoor lighting smart cloud control platform and products on both sides of the Xiangjiang River in Changsha.
 2021: The main provider of the overall lighting control system and product for the Shaanxi National Games.

.....

Overall lighting of prefecture-level cities

2016: The major supplier of control systems and products for Zhangjiajie Downtown Lighting.
 2016: The major supplier of control systems and products for Baoding Downtown Lighting.
 2016: The major supplier of control systems and products for Fuzhou Downtown Lighting.
 2016: The major supplier of control systems and products for Shangrao Downtown Lighting.
 2017: The major supplier of control systems and products for Hanzhong Downtown Lighting.

2017: The major supplier of control systems and products for Ordos Downtown Lighting.
 2017: The major supplier of control systems and products for Wenzhou Downtown Lighting.
 2017: The major supplier of control systems and products for Ningbo Hi-tech Zone Lighting.
 2017: The major supplier of control systems and products for Hulun Buir Downtown Lighting.
 2017: The major supplier of control systems and products for Yancheng Lighting.

2017: The major supplier of control systems and products for Huanyu Huijin Center in the CBD of Dongguan.
 2017: The major supplier of products for the celebration for the 60th Anniversary of the Establishment of Honghe Prefecture.
 2017: The major supplier of products for Old Town Reconstruction and Lighting in Baicheng City, Jilin Province.
 2017: The major supplier of control systems and products for Lighting of Shangyu District, Shaoxing City.
 2017: The major supplier of control systems and products for Anqing Downtown Lighting.

2017: The major supplier of control systems and products for the Nightscape Project of Huayang Lake Wetland Park, Mayong, Dongguan.
 2018: The major supplier of control systems and products for the Wenzhou Oujiang River Banks Core Section Nightscape Lighting Project.
 2019: City Lighting Upgrade Project of Maanshan City.
 2019: the exclusive supplier of control systems and products for Korla Node Lighting.
 2019: the project of Guandou Town, Jiujiang District, Wuhu City.

2019: The major supplier of control systems and products for the river embankment building linkage project in Heihe City (240,000 point light sources).
 2019: the Lighting Project of Puxi River (Downtown Area), Huangshan District, Huangshan City.
 2019: the Lighting Project of Southern New District of Ji'an City.
 2019: the Lighting Project of Pharmaceutical High-tech Zone of Taizhou City.
 2019: the Outdoor Lighting Project of the Downtown Area of Golund City.

2019: the Outdoor Lighting Project of the Downtown Area of Xuecheng District, Zaozhuang City.
 2019: the Key Lighting Project of Urban Roads of Weinan City.
 2019: the Outdoor Lighting Project of the Downtown Area and the High-tech Zone of Yantai City.
 2019: the "Light of Lishui" Nanhu Lake Nightscape Lighting Project in Lishui City.
 2019: The major supplier of control systems and products for Xiangyang "Three Rivers and Five Banks" lighting.

2020: The major supplier of control systems and products for Shandong Weihai Bay and Liugong Island landscape lighting.
 2020: The major supplier of control systems and products for the night scene identification project of Suqian Jiudu.
 2020: The major supplier of control systems and products for Yueyang Hengda Health Valley Project.
 2020: The major supplier of control systems and products for Tai'an Cultural Tourism City Project.
 2020: The major supplier of control systems and products for Chaozhou Tengrui Center.

2020: The major supplier of control systems and products for Ganzhou city center.
 2020: The major supplier of control systems and products for Suzhou High-speed Rail New City.
 2020: The major supplier of control systems and products for Baoji City.
 2021: The major supplier of control systems and products for Foshan City's overall lighting.

.....

Overall lighting of counties

2016: The major supplier of control systems and products for Peng'an Downtown Lighting.
 2016: The major supplier of control systems and products for Yuqing Downtown Lighting (1,000,000 point light sources).
 2017: The major supplier of control systems and products for Yanhe Downtown Lighting (1.3 million point light sources).
 2017: The major supplier of control systems and products for Libo Downtown Lighting (700,000 point light sources).
 2018: The major supplier of control systems and products for Chongqing Zhongxian Downtown Lighting.

2019: the Nightscape Upgrade Project of Dege County.
 2019: the urban area Lighting of the Changwu County, Xianyang City, Shaanxi.
 2019: Qinyuan Phase I Lighting Project.
 2019: the urban area Nightscape Lighting Upgrade Project of Minqing County.
 2020: Qingtian COFCO Baiyue City Project.

Control System

Smart IoT Cloud Controls the World-EXC-ECCP4.0 Smart Cloud Control Platform

Birth background

"Smart City" is the use of big data, Internet, artificial intelligence and other technologies and data-driven to create an efficient and flexible urban system in urban construction. With the progress of smart city construction With continuous advancement, the development concept, construction idea, implementation path, operation mode, technical means and other all-round iterative upgrades of smart cities have entered a new smart city development stage that is people-oriented, effectiveness-oriented, overall planning, and collaborative innovation.

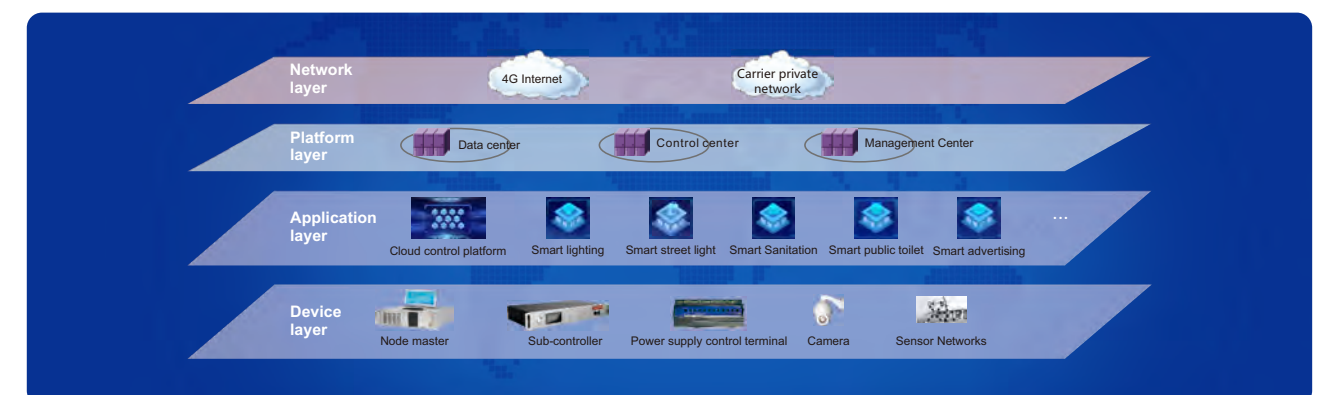

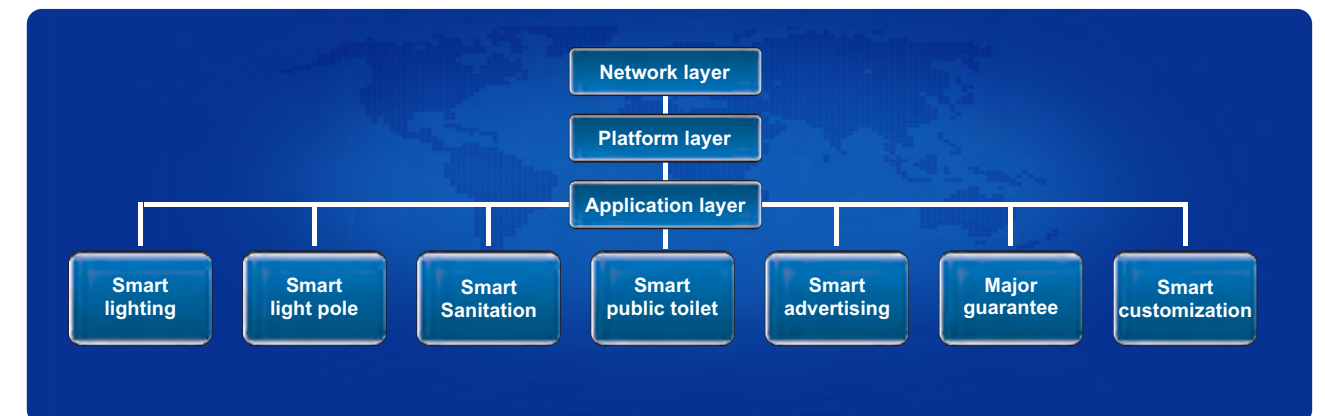

After years of exploration in the field of smart city systems, EXC-LED has formed unique advantages in technology, debugging, and services. The delivery of many successful cases has also accumulated a lot of practical experience for continuous technological innovation in this field. Based on the current overall deployment of actively promoting the construction of smart cities across the country, EXC-LED has assembled the needs of many city managers to effectively collect and analyze city big data, relying on cloud services and 4G/5G technology applications to launch EXC-ECCP4.0 Smart The cloud control platform greatly enhances the level of urban smart management, contributes to the development of smart cities, and creates a new situation for the sustainable and scientific development of smart cities.

System Introduction

Based on efficient operation and maintenance and energy saving and emission reduction, EXC-LED integrates the needs of relevant management agencies and authorities of smart cities, and uses technologies such as the Internet of Things, big data, and cloud computing to carefully build the EXCECCP4.0 smart cloud control platform. This cloud platform provides a dual engine of management and energy saving for smart cities, serves a wider area and more cities, creates a new smart city ecology that is harmonious between people and cities, and people and the environment, and gives full play to the role of smart cities in promoting economic and social development. , Create good economic and social benefits.

The EXC-ECCP4.0 smart cloud control platform includes smart lighting, smart street lights, smart sanitation, smart public toilets, smart advertising, smart parks, major guarantees, smart maps, smart operation and maintenance, smart monitoring, smart customization and other subsystems, with powerful business and massive data analysis and processing capabilities of the company, and provide clear and clear data statistics graphical interface, visual GIS electronic map interface and other forms of display interface, with complete urban smart management functions. The platform is independently developed and designed by EXC-LED, possesses complete intellectual property rights, and has a number of invention patents and software copyrights.

The cloud platform breaks information islands and builds an interconnected big data system with a future-oriented and user-oriented Internet of Things thinking, which effectively improves city management efficiency and reduces operation and maintenance costs.

Product Size Unit: mm

Product Features

- Support various audio and video input formats.
- Support remote wake-up, intelligent turn-on/off, intelligent effect change.
- Support synchronous real-time playback, suitable for use in large buildings.
- Support sensor control such as: light, music, temperature, etc.
- Support timing playback in multiple holiday modes.
- Need to be used with EXC-2900 or EXC-S880 series slave-controllers.
- Be provided with industry-level networking system to make it safer and more stable.
- Support the control over EXC full series lighting fixtures.

Control Parameters

Control method: EXC full series lighting fixtures and DMX512 standard protocol lighting fixture

CPU: Core i7

RAM: 8G/32G

Graphics card: 2G independent display/4G independent display

Storage method: industrial-grade solid state drive

Control software: EXC player

Communication protocol: TCP/IP/UDP protocol

Online playback: support

Wireless synchronization: support

Structure Parameters

Shell material: IPC chassis

Surface Color: silver grey

Standard accessories: keyboard, mouse, power cord, monitor

Environmental parameters

Working temperature: 5°C- 50°C

Storage temperature: -20°C- 60°C

Humidity range: 0%~90%

Protection rating: IP20

Available Model

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|---|-------------------|-------|---------------|--------|-----------------------|
| S Series | EXC-10000S | IOT lighting processor, small industrial computer, capable of controlling no more than 300,000 pixels | AC220V | 300W | 305*300*130mm | 12kg | 5°C-50°C |
| P Series | EXC-10000P | IOT lighting processor, 4U industrial computer, capable of controlling no more than 300,000 pixels | AC220V | 350W | 481*490*177mm | 17kg | 5°C-50°C |
| Pro Series | EXC-10000P Pro | IOT lighting processor, 4U industrial computer, capable of controlling no more than 1,000,000 pixels | AC220V | 500W | 481*490*177mm | 17kg | 5°C-50°C |

Cloud Control System Connection Diagram

Product Size Unit: mm

Product Features

- Support various audio and video input formats.
- Support remote wake-up, intelligent turn-on/off, intelligent effect change.
- Support synchronous real-time playback, control pixels for projects within 200,000 dots.
- Support sensor control such as: light, music, temperature, etc.
- Support timing playback in multiple holiday modes.
- Need to be used with EXC-2900 or EXC-S880 series slave-controllers.
- Be provided with industry-level networking system to make it safer and more stable.
- Support the control over EXC full series lighting fixtures.

Control Parameters

Control method: EXC full series lighting fixtures and DMX512 standard protocol lighting fixture

CPU: Core i5

RAM: 8G

Graphics card: 2G independent display

Storage method: industrial-grade solid state drive

Control software: EXC player

Communication protocol: TCP/IP/UDP protocol

Online playback: support

Structure Parameters

Shell material: IPC chassis

Surface Color: silver grey

Standard accessories: keyboard, mouse, power cord, monitor

Environmental parameters

Working temperature: 5°C- 50°C

Storage temperature: -20°C- 60°C

Humidity range: 0%~90%

Protection rating: IP20

Available Model

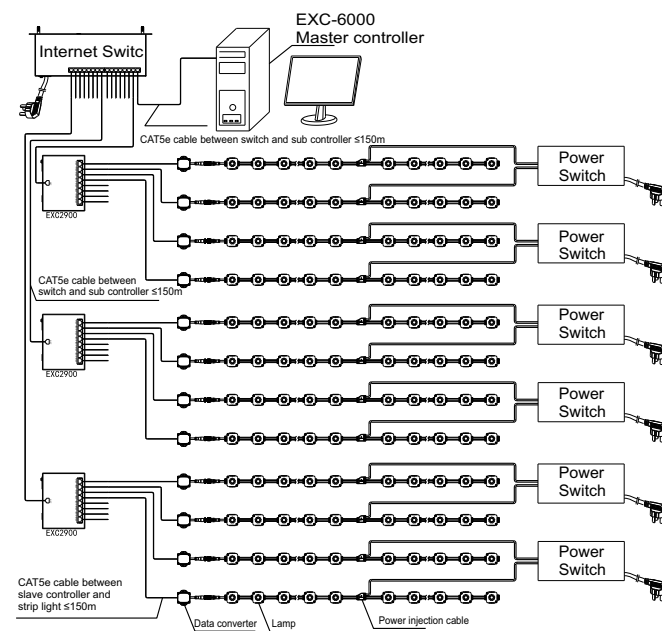

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|---|-------------------|-------|---------------|--------|-----------------------|
| S Series | EXC-8000S | IOT lighting processor, small industrial computer, capable of controlling no more than 200,000 pixels | AC220V | 300W | 305*300*130mm | 8.9kg | 5°C-50°C |
| P Series | EXC-8000P | IOT lighting processor, 4U industrial computer, capable of controlling no more than 200,000 pixels | AC220V | 300W | 481*509*175mm | 17kg | 5°C-50°C |

EXC-6000

Internet Multimedia Processor

Cloud Control System Connection Diagram

Product Size Unit: mm

Control Parameters

Control method: EXC full series lighting fixtures and DMX512 standard protocol lighting fixture
 Graphics card: 2G independent display
 Storage method: SSD/HDD
 Control software: EXC player
 Communication protocol: TCP/IP protocol
 Online playback: support
 Wireless synchronization: support

Available Model

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|----------------------|-----------------|---|-------------------|-------|---------------|--------|-----------------------|
| Economic Version | EXC-6000S | Online master controller, Commercial customized version, capable of controlling no more than 300,000 pixels | AC220V | 300W | 254*147*60mm | 8.9kg | 5°C-50°C |
| Professional Version | EXC-6000P | Online master controller, Industrial customized version, capable of controlling no more than 300,000 pixels | AC220V | 300W | 481*509*175mm | 17kg | 5°C-50°C |

Product Features

- Support various audio and video input formats;
- Support intelligent turn-on/off, intelligent effect change;
- Support synchronous real-time playback, control pixels for projects within 300,000 dots;
- Support timing playback in multiple holiday modes;
- Need to be used with EXC-2900 series sub-controllers;
- Be provided with industry-level networking system to make it safer and more stable;
- Support the control over EXC full series lighting fixtures;

Structure Parameters

Shell material: IPC chassis
 Surface Color: silver grey
 Standard accessories: keyboard×1/mouse×1 /instruction book×1/
 power cord×2/19" display×1/VGA line×1

Environmental parameters

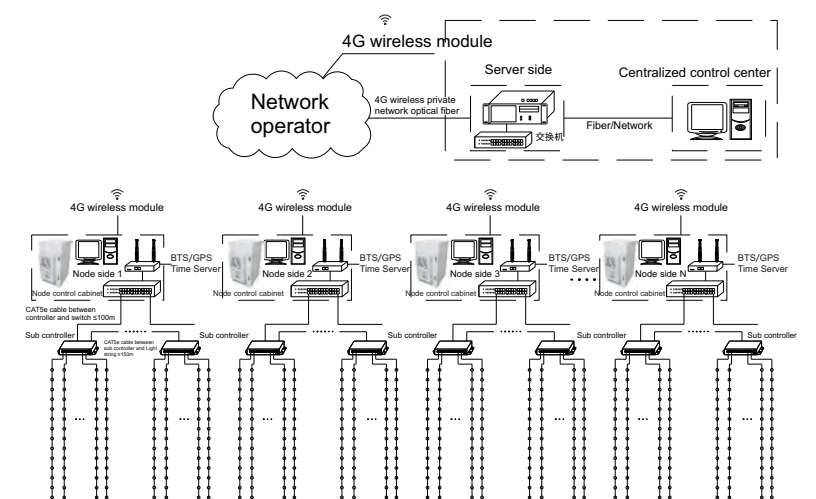

Working temperature: 5°C~ 50°C
 Humidity range: 30%~80%
 Protection rating: Indoor

EXC-CTC6000P

Intelligent thermostatic cabinet

Cloud Control System Connection Diagram

Product Size Unit: mm

Product Features

- Automatic operation after power on, intelligent temperature adjustment, no human interference;
- Support RS485 communication, and the operation status and parameters can be queried through the upper computer;
- Support dry contact output of public alarm relay;
- High quality 304 stainless steel + outdoor surface treatment double protection;
- The equipment can operate continuously for 7 * 24 hours;
- IP55 protection grade, meet the working requirements of general field communication equipment;

Control Parameters

Control mode: automatic operation
 Refrigerating power: 200W
 Heating power: 400W
 Signal interface: RS485
 Display Screen: 96 * 32 LCD
 Key: 7 keys
 Signal acquisition: dry contact output
 Indicator: Optional

Structure parameters

Shell material: 304 stainless steel
 Surface color: Grey outdoor orange powder
 Standard accessories: Power strip, Signal cord, power cord, instruction

Environment parameters

Operating temperature: -40°C~50°C
 Storage Temperature: -40°C~65°C
 Humidity range: 0%~90%
 Protection rating: IP55

Available Model

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|---|-------------------|-------|---------------|--------|-----------------------|
| P series | EXC-CTC6000P | Intelligent thermostatic cabinet, provide a clean environment with constant temperature and humidity (25 °C, 50% RH) for internal core equipment to ensure long-term reliable and stable operation of the equipment | AC220V | 400W | 795*600*800mm | 80kg | -40°C-55°C |

EXC-ECCP-C

Touch control console series

Product size unit:mm

Product Features

- 4K ultra-high-definition display, narrow bezel design, front USB port that switches with the channel
- Custom Android system design
- Ultra-thin pluggable PC module, built-in video conferencing software under the PC channel
- Anti-light interference touch technology
- In standby mode, HDMI channel signal input intelligent wake-up
- Support wireless screen transfer function
- Support WIFI dual frequency 2.4G/5G
- Support one network cable for dual-system Internet access, and one wireless dual-system network sharing
- With channel memory function, it will enter the homepage by default after power-on
- One-key black screen (energy saving, environmental protection, improve service life)

Control Parameter

Control mode: 20-point touch mode
 Operating system: Android/win10 dual system
 Resolution: 3840 (H) × 2160 (V)
 WIFI: 802.11 a/b/g/n/ac version, 2.4GHZ/5GHZ, ≤12M
 Bluetooth: 4.2 version, 2.4GHZ, ≤12M
 Speaker: channel 2.1 power 2*10W+20W
 I/O interface: MDMI IN/USB2.0/USB3.0/TYPE-C/TOUCH/AUDIO OUT/RS232
 Camera: 12 million

Environmental parameters

Working temperature: 0°C to 40°C
 Storage temperature: -20°C to 60°C
 Humidity range: 0%-90%
 Protection level: IP20

Structural parameters

Shell material: high-quality electrolytic galvanized sheet + powder spray
 Surface color: black
 Signal interface: EXC dedicated connector
 Standard accessories: touch pen, PC module

Available Models

| Series option | Model and spec | Feature | Operating voltage | Power | Size | Weight | Operating temperature |
|---------------|----------------|---|-------------------|--------|-----------------|--------|-----------------------|
| EXC-ECCP-C | EXC-ECCP-C-1 | 1. With HDMI high-definition display port, which can be connected to an external display; 2. Include 1*55 inch touch screen, support touch operation; 3. Android/windows10 system | AC220V | 330W | 2466x1032x996mm | 45kg | 0°C-40°C |
| EXC-ECCP-C | EXC-ECCP-C-2 | 1. With HDMI high-definition display port, which can be connected to an external display; 2. Include 1*55 inch touch screen, support touch operation; 3. Android/windows10 system | AC220V | 330W*2 | 3857x1032x996mm | 90kg | 0°C-40°C |
| EXC-ECCP-C | EXC-ECCP-C-4 | 1. With HDMI high-definition display port, which can be connected to an external display; 2. Include 4*55 inch touch screen, support touch operation; 3. Android/windows10 system | AC220V | 330W*4 | 6645x1032x996mm | 180kg | 0°C-40°C |

EXC-M620

IOT lighting controller series

Product size unit:mm

Control parameters

Control method: EXC full series lighting fixture and DMX512 standard protocol lighting fixture
 Color Range: Support monochrome, two-color, three-color, four-color and multi-channel lamps
 Control Capable: ≤150000 pixels
 Grey scale: 8Bits/12Bits/16Bits
 Communication port: 1000Mbps ethernet portx2
 Communication protocol: TCP/IP protocol
 On-line play: Yes
 Storage medium: SD cards≤32G
 Wi-Fi Sync: support

Available Model

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|---|-------------------|-------|--------------|--------|-----------------------|
| EXC-M620 | EXC-M620D-SPC | IOT master controller, dual ethernet port, full series lighting fixture, 4G networking, remote program distribution, strong current control, Indoor, 150,000 pixels, extensible | AC220V | 15W | 215*142*42mm | 1.2kg | -30°C-50°C |

Cloud Control System Connection Diagram

Product Features

- To be used together with EXC-S880 or EXC-2900 series sub controller;
- Capable of controlling no more than 150,000 pixels;
- Support redundant dual backup to provide reliability;
- Support Ethernet interface and TCP/IP/UDP data communication protocols
- Support parallel connection of switches to reduce system cascading chain length and improve stability;
- Support synchronous control of multiple GPS satellites/BTS wireless base stations;
- Control no more than 60 frames/s of frame frequency and 65536 grades grey scale lighting fixture;
- Support standard DMX512/1990 general protocol and DMX512 extension protocol;
- Support three-primary-color independent brightness control to make the precise adjustment of white balance simpler and more effective;
- Support automatic, timed and preset festival effect play
- Support SD card storage of no more than 32G to preset no more than 99 program files;
- Support the mixed use of lighting fixtures in different types and protocols, to achieve high compatibility;
- Support the control over EXC full series lighting fixture

Structure parameters

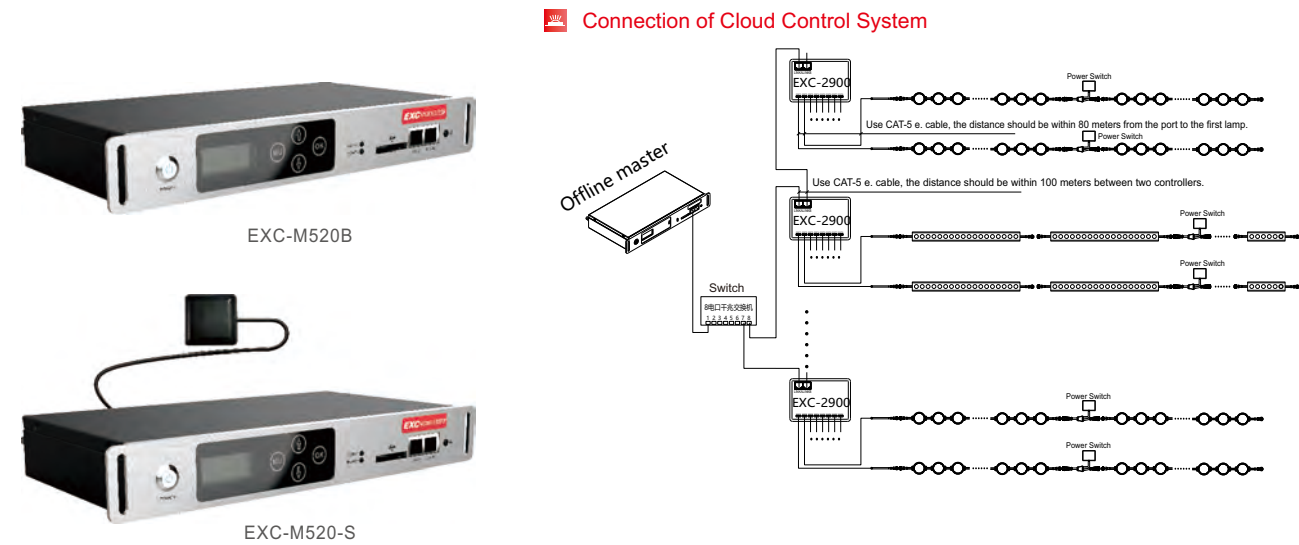

Shell material: high quality electro-galvanized steel sheet + powder injection
 Surface color: black
 Signal connector: EXC special connector
 Standard accessories: remote controller ×1/SD card×1/card reader×1/AC power cord×1

Environment parameters

Operating temperature: -30°C-50°C
 Storage Temperature: -40°C-70°C
 Humidity range: 0%-90%
 Protection rating: IP20(Section B)

EXC-M520

Off-line controller series

Product Size Unit: mm

Product Features

- To be used together with EXC-S880 or EXC-2900 series sub controller.
- Capable of controlling no more than 100,000 pixels.
- Support redundant dual backup to provide reliability.
- Support Ethernet interface and TCP/IP/UDP data communication protocols.
- Support parallel connection of switches to reduce system cascading chain length and improve stability.
- Support synchronous control of multiple GPS satellites/BTS wireless base stations.
- Control no more than 60 frames/s of frame frequency and 65536 grades grey scale lighting fixture.
- Support standard DMX512/1990 general protocol and DMX512 extension protocol.
- Support three-primary-color independent brightness control to make the precise adjustment of white balance simpler and more effective.
- Support automatic, timed and preset festival effect play.
- Support SD card storage of no more than 32G to preset no more than 99 program files.
- Support the mixed use of lighting fixtures in different types and protocols, to achieve high compatibility.
- Support the control over EXC full series lighting fixture.

Control Parameters

Control method: EXC full series lighting fixture and DMX512 standard protocol lighting fixture
 Color Range: Support monochrome, two-color, three-color, four-color and multi-channel lamps
 Control Capable: ≥100000 pixels
 Grey scale: 8Bits/12Bits/16Bits
 Communication port: 1000Mbps ethernet portx2
 Communication protocol: TCP/IP protocol
 On-line play: Yes
 Storage medium: SD cards≤32G
 Wi-Fi Sync: support EXC-M520B-S series

Structure parameters

Shell material: high quality electro-galvanized steel sheet + powder injection
 Surface color: black
 Signal connector: EXC special connector
 Standard accessories: remote controller ×1/SD card×1/card reader×1/AC power cord×1

Environment parameters

Operating temperature: -30°C~50°C
 Storage Temperature: -40°C~70°C
 Humidity range: 0%-90%
 Protection rating: IP20(Section B)

Available Model

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|--|-------------------|-------|--------------|--------|-----------------------|
| EXC-M520 | EXC-M520B | Off-line master controller, dual ethernet port, full series lighting fixture, Indoor, 100,000 pixels, standard configuration, non-extensible | AC220V | 15W | 291*145*40mm | 1.2kg | -30°C-50°C |
| | EXC-M520B-S | Off-line master controller, dual ethernet port, full series lighting fixture, Indoor 100,000 pixels, GPS synchronization, extensible | AC220V | 15W | 291*145*40mm | 1.2kg | -30°C-50°C |

EXC-Y881

IOT lighting controller

Connection of Cloud Control System

Product Size Unit: mm

Product Features

- Multifunctional integration, which can be used as master control and sub control.
- 8-port output, each port can control ≤ 680 pixels.
- Dual network ports, built-in switch, support TCP / IP / UDP data communication protocol.
- Support RDM function and RDM over ArtNet function.
- Support ArtNet/SCAN protocol and related software control.
- Support WEB interface configuration and bilingual switching between Chinese and English.
- Support the conversion of dm512 to ArtNet, and convert DMX512 to network ArtNet data.
- With display screen and operation keys.
- Support standard DMX512/1990 general protocol and extended DMX512 protocol.
- Independent brightness control of three primary colors, makes it easier and more effective to accurately adjust the white balance.
- Port enhanced protection circuit, ensure the port not easy to be damaged.
- Support the control of full EXC series lighting fixture.

Structure parameters

Shell material: Metal
 Surface color: black
 Signal connector: dedicated EXC connector
 Standard accessories: connecting terminal

Environment parameters

Operating temperature: -30°C~50°C
 Storage Temperature: -40°C~70°C
 Humidity range: 0%-90%
 Protection rating: IP20

Control Parameters

Control method: EXC full series lighting fixture and DMX512 standard protocol lighting fixture
 Color Range: Support monochrome, two-color, three-color, four-color and multi-channel lamps
 Control Capable: ≤5000 pixels
 Grey scale: 8Bits/12Bits/16Bits
 Communication port: 1000Mbps ethernet portx2
 Communication protocol: TCP/IP protocol
 On-line play: Yes
 Storage medium: Micro SD cards≤256G, not available by default
 Wi-Fi Sync: not support

Available Model

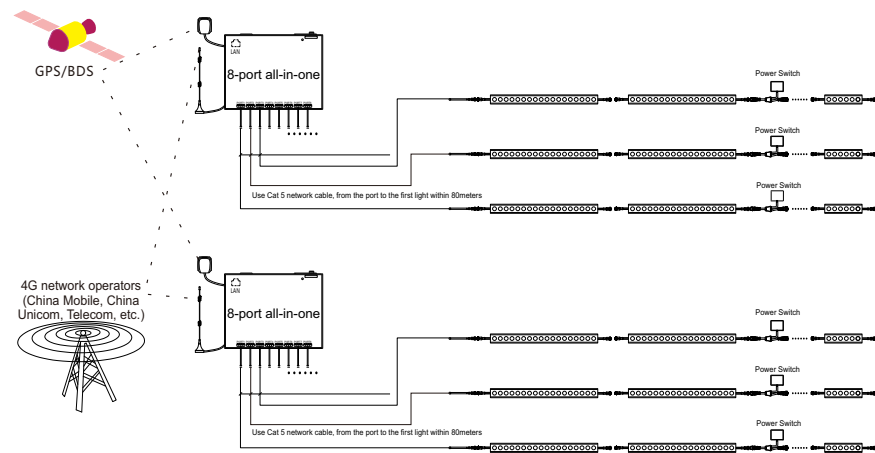

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|--|-------------------|-------|--------------|--------|-----------------------|
| EXC-Y881 | EXC-Y881X-AR | Artnet controller, With master controller and sub controller switching function, double 100m network port, full series lighting fixture, 5000 pixels, standard configuration, non-extensible | DC9-48V | 15W | 178*114*33mm | 1kg | -30°C-50°C |

EXC-Y880

IoT lighting controller series

Cloud Control System Connection Diagram

Product Size Unit: mm

EXC-Y880A

Product Features

- Integrate master controller and slave controller and may be directly provided with lights.
- Support 8-port output, with each port controlling no more than 3,072 channels.
- Support Ethernet interface and TCP/IP/UDP data communication protocols.
- Support synchronous control of multiple GPS satellites/BTS wireless base stations.
- Support 4G networking and remotely deliver programs.
- Control no more than 60 frames/s of frame frequency and 65536 grades grey scale lighting fixture.
- Support standard DMX512/1990 general protocol and DMX512 extension protocol.
- Support three-primary-color independent brightness control to make the precise adjustment of white balance simpler and more effective.
- Support automatic, timed and preset festival effect play.
- Support SD card storage of no more than 32G to preset no more than 99 program files.
- Support the mixed use of different types of lamps and lamps of different protocols, with strong compatibility.
- Be provided with port enhancement type protective circuit to achieve better protection of port.
- Support the control over EXC full series lighting fixture.
- Support 1 RS 2 3 2 and 4 8 5 interface each, support parameter configuration and third-party device access.
- Support 2 dry nodes and 2 wet nodes, can be used for external third-party sensing equipment such as door opening detection, water flooding sensor, fire alarm sensor, etc.

Control Parameters

Control method: EXC full series lighting fixture and DMX512 standard protocol lighting fixture
 Control color: support single color, double color, three color, four color and multi-channel lamps
 Pixel under control: ≥8000 pixel
 Grey scale: 8Bits/12Bits/16Bits
 Communication port: 100Mbps ethernet port x1 4G port x1
 Communication protocol: TCP/IP protocol
 On-line play: Yes
 Storage medium: SD cards 32G
 Wi-Fi Sync: support EXC-Y880A-S EXC-Y880A-SC series

Structure parameters

Shell material: high quality electro-galvanized steel sheet + powder injection
 Surface color: black
 Signal connector: dedicated EXC connector
 Standard accessories: remote controller x1/SD card x1/card reader x1/AC power cord x1

Environment parameters

Operating temperature: -30°C-50°C
 Storage Temperature: -40°C-70°C
 Humidity range: 0%-90%
 Protection rating: IP5X

Available Model

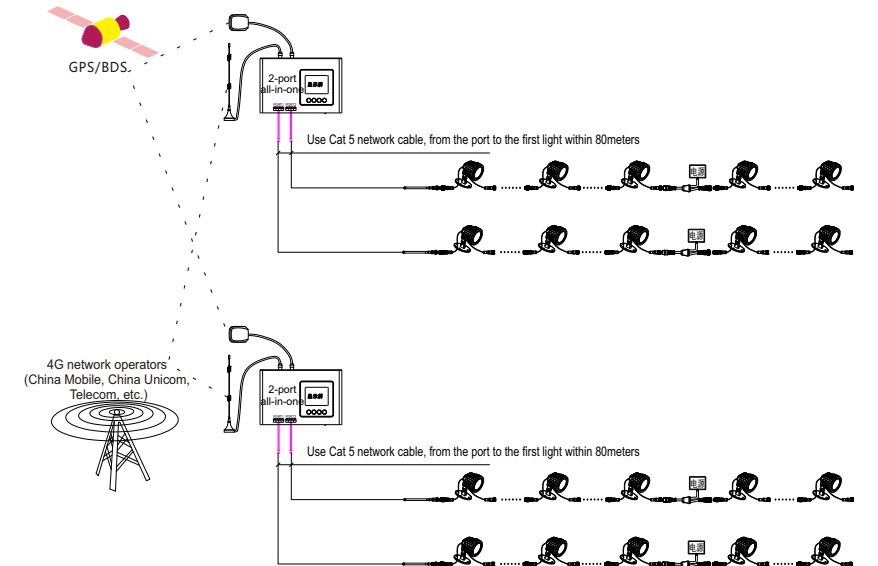

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|---|-------------------|-------|--------------|--------|-----------------------|
| EXC-Y880 | EXC-Y880A | Main and sub controller all-in-one machine, 100M Ethernet port, all series of lamps, outdoor, maximum 8000 pixels, standard configuration, not expandable | AC220V | 15W | 249*305*77mm | 1.8kg | -30°C-50°C |
| | EXC-Y880A-S | Main and sub controller all-in-one machine, 100M Ethernet port, all series of lamps, outdoor, maximum 8000 pixels, GPS synchronization, expandable | AC220V | 15W | 249*305*77mm | 1.8kg | -30°C-50°C |
| | EXC-Y880A-SC | Main and sub controller all-in-one machine, 100M Ethernet port, all series of lamps, outdoor, maximum 8000 pixels, GPS synchronization, expandable, 4G program delivery | AC220V | 15W | 249*305*77mm | 1.0kg | -30°C-50°C |

EXC-Y220

IoT lighting controller series

Cloud control system connection diagram

Product Size Unit: mm

Product Features

- Integrate master controller and slave controller and may be directly provided with lights
- Support 2-port output, with each port controlling no more than 3,072 channels
- Support Ethernet interface and TCP/IP/UDP data communication protocols
- Support synchronous control of multiple GPS satellites/AC synchronous control
- Support 4G networking and remotely deliver programs
- Control no more than 60 frames/s of frame frequency and 65536 grades grey scale lighting fixture
- Support standard DMX512/1990 general protocol and DMX512 extension protocol
- Support three-primary-color independent brightness control to make the precise adjustment of white balance simpler and more effective
- Support automatic, timed and preset festival effect play
- Support SD card storage of no more than 32G to preset no more than 99 program files
- Support the mixed use of different types of lamps and lamps of different protocols, with strong compatibility
- Be provided with port enhancement type protective circuit to achieve better protection of port
- Support the control over EXC full series lighting fixture

Control parameters

Control method: EXC full series lighting fixture and DMX512 standard protocol lighting fixture
 Control color: support single color, double color, three color, four color and multi-channel lamps
 Pixel under control: ≥2000 pixel
 Grey scale: 8Bits/12Bits/16Bits
 Communication port: 4G
 Communication protocol: TCP/IP protocol
 On-line play: Yes
 Storage medium: SD cards 32G
 Wi-Fi Sync: support EXC-Y220C-S EXC-Y220C-SC series

Structure parameters

Shell material: high quality electro-galvanized steel sheet + powder injection
 Surface color: black
 Signal connector: dedicated EXC connector
 Standard accessories: SD card x1/card reader x1/AC power cord x1

Environment parameters

Operating temperature: -30°C-50°C
 Storage Temperature: -40°C-70°C
 Humidity range: 0%-90%
 Protection rating: IP20

Available Models

| Series option | Model and spec | Feature | Operating voltage | Power | Size | Weight | Operating temperature |
|---------------|----------------|--|-------------------|-------|--------------|--------|-----------------------|
| EXC-Y220 | EXC-Y220C | Main and sub controller all-in-one machine, 2 port, all series of lamps, indoor, maximum 2000 pixels, standard configuration, AC synchronization, expandable | | 2W | 157*105*24mm | 0.5kg | -30°C-50°C |
| | EXC-Y220C-S | Main and sub controller all-in-one machine, 2 port, all series of lamps, indoor, maximum 2000 pixels, GPS synchronization, expandable | AC12V/DC 7.5V-24V | 2W | 157*105*24mm | 0.5kg | -30°C-50°C |
| | EXC-Y220C-SC | Main and sub controller all-in-one machine, 2 port, all series of lamps, indoor, maximum 2000 pixels, GPS synchronization, expandable, 4G program delivery | | 8W | 157*105*24mm | 0.5kg | -30°C-50°C |

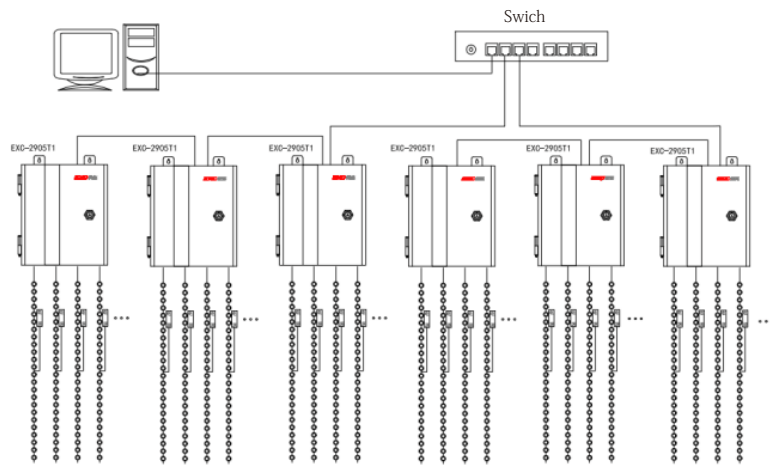

EXC-2905T1

Sub controller series

Cloud Control System Connection Diagram

EXC-2905T1

Product Size Unit: mm

EXC-2905T1

Product Features

- To be used together with master controller;
- Support 8-port output, with each port controlling no more than 512 pixels;
- Support Ethernet interface and TCP/IP/UDP data communication protocols
- Support parallel connection of switches to reduce system cascading chain length and improve stability;
- Support synchronous control of multiple GPS satellites/BTS wireless base stations;
- Control no more than 60 frames/s of frame frequency and 65536 grades grey scale lighting fixture;
- Support standard DMX512/1990 general protocol and DMX512 extension protocol;
- Support three-primary-color independent brightness control to make the precise adjustment of white balance simpler and more effective;
- Support automatic, timed and preset festival effect play
- Support the mixed use of lighting fixtures in different types and protocols, to achieve high compatibility;
- Be provided with port enhancement type protective circuit to achieve better protection of port;
- Support the control over EXC full series lighting fixture

Control Parameters

Control method: EXC full series lighting fixture and DMX512 standard protocol lighting fixture

Output channel: 8 LED on-load output port

Pixel under control: 8×512 pixel

Grey scale: 8Bits/12Bits/16Bits

Communication port: 1000Mbps ethernet portx2

Communication protocol: TCP/IP protocol

On-line play: Yes

Storage medium: N/A

Wi-Fi Sync: Yes

Structure parameters

Shell material: high quality electro-galvanized

steel sheet + powder injection

Surface color: black

Signal connector: dedicated EXC connector

Standard accessories: AC power cord×1

Environment parameters

Operating temperature: -30°C~50°C

Storage Temperature: -40°C~70°C

Humidity range: 0%-90%

Protection rating: IP5X

Available Model

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-----------------|--|-------------------|-------|--------------|--------|-----------------------|
| EXC-2905T1 | EXC-2905T1 | Generation 2, slave controller, 8 ports, DMX lighting fixture, IP54, 4,096 pixel | AC220V | 15W | 249*305*77mm | 2.0kg | -30°C~50°C |

EXC-S880

Sub controller series

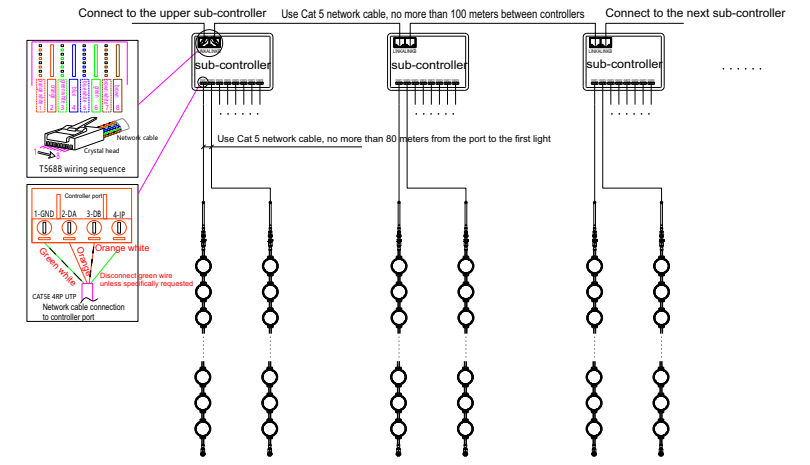

Cloud Control System Connection Diagram

EXC-S880B

EXC-S880A

Product Size Unit: mm

EXC-S880B

EXC-S880A

Product Features

- To be used together with master controller.
- Support 8-port output, with each port controlling no more than 3072 channels.
- Support Ethernet interface and TCP/IP/UDP data communication protocols.
- Support parallel connection of switches to reduce system cascading chain length and improve stability.
- Support synchronous control of multiple GPS satellites/BTS wireless base stations.
- Control no more than 60 frames/s of frame frequency and 65536 grades grey scale lighting fixture.
- Support standard DMX512/1990 general protocol and DMX512 extension protocol.
- Support three-primary-color independent brightness control to make the precise adjustment of white balance simpler and more effective.
- Support automatic, timed and preset festival effect play.
- Support the mixed use of lighting fixtures in different types and protocols, to achieve high compatibility.
- Be provided with port enhancement type protective circuit to achieve better protection of port.
- Support the control over EXC full series lighting fixture.

Control Parameters

Control method: EXC full series lighting fixture and DMX512 standard protocol lighting fixture

Output channel: 8 LED on-load output port

Pixel under control: 8×1024 pixel

Grey scale: 8Bits/12Bits/16Bits

Communication port: 1000Mbps ethernet portx2

Communication protocol: TCP/IP protocol

On-line play: Yes

Storage medium: N/A

Wi-Fi Sync: Yes

Environment parameters

Operating temperature: -30°C~50°C

Storage Temperature: -40°C~70°C

Humidity range: 0%-90%

Protection rating: IP54(Type A) IP20(Type B)

Structure parameters

Shell material: high quality electro-galvanized

steel sheet + powder injection

Surface color: black

Signal connector: dedicated EXC connector

Standard accessories: AC power cord×1

Available Model

| Series Option | Model and Specs | Main Features | Operating Voltage | Power | Size | Weight | Operating Temperature |
|---------------|-------------------|--|-------------------|-------|--------------|--------|-----------------------|
| EXC-S880A | EXC-S880A-DR1 | Sub controller, 8 port, tandem lighting fixture, outdoor, standard RDM protocol, standard 512 channels | AC220V | 15W | 249*305*77mm | 2.0kg | -30°C~50°C |
| EXC-S880B | EXC-S880B-E4P007A | Sub controller, 8 port, tandem lighting fixture, indoor, 8192pixels maximum | AC220V | 15W | 291*145*40mm | 1.2kg | -30°C~50°C |
| | EXC-S880B-E4P007B | Sub controller, 8 port, parallel lighting fixture, indoor, 8192pixels maximum | AC220V | 15W | 291*145*40mm | 1.2kg | -30°C~50°C |

Architectural Landscape Lighting

- Pixel Light Series
- Wall Washer Light Series
- Flood Light Series
- Linear Light Series

PIXEL LIGHT SERIAL

MAIN TECHNICAL ADVANTAGES OF PRODUCTS

Lighting Control

State feedback: Supportive of the standard RDM and user-defined fault feedback protocol, capable of real-time feedback of such information as lamp operating voltage, temperature, current, power, manufacturer, etc.

High gray scale and high refresh rate: Gray scaling of more than 65536 grades; refresh rate of over 4K; no strobe during video shooting.

Dynamic light distribution: Intelligent dynamic adjustment of lightness by 10%-100% without any loss in gray scale; Adaptive brightness to different seasons and application scenarios without changing gray scale.

Power-on color: Capable of displaying any color in real-time tests under the condition of no signal; allowing emergency commissioning in the early stage of the project.

Wide-voltage power supply: Supportive of DC15-48V safe wide-voltage power supply scheme, completely solving the problem of voltage drop in long-distance power supply of high-rise buildings.

Optical Characteristics

Polarization: Equipped with the optical lens independently developed by EXC, providing comparatively high optical efficacy, wall washing height and consistency, free from color patch.

Wide view distance: Multi-level optical design, improving the optical efficacy and the near-far brightness consistency, an assurance for the harmony, health and comfort of light shows.

Lamp Structure

Thermal drive separation: Unique patented structural design, greatly improving heat dissipation efficiency and reliability.

Harmony with the surroundings in color: the color of the lamp body perfectly blends with the architectural background, weakening the influence of the lamp body on the appearance of the buildings.

Self-cleaning design: Unique lens design, avoiding accumulation of dust and sundries when used outdoors.

Automatic process: Subject to the automatic process design, greatly improving the production capacity, shortening the delivery period and improving the reliability of product quality.

PIXEL LIGHT NAMING RULE

| Product classification | Lamp width | Installation characteristics | Material | Product serial code |
|------------------------|--|---|--|--|
| P: Pixel light | Named after the width of the product, in mm. | Installation mode: A: Installation with profile; B: Installation with mounting seat and steel wire C: Installation with front clip D: Installation with screw or adhesive; E: Installation with profile + steel wire; F: Installation with front-loading buckle + steel wire; G: Installation with front-loading buckle + steel wire + profile | P: Plastic bottom case M: Metal bottom case | Serial codes which represent lights with the same width, 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, A, B, C ... Z |

Testing and verification of pixel light series products (Taking P85DM0 3W 3000K as an example)

| Reliability test items | High and low temperature cyclic lighting aging test | Double-85 lighting accelerated aging test | Dual-85 storage test | |
|-----------------------------|---|---|---|---|
| Reference standard | Refer to GB 7000.1-2015 "Luminaires -Part 1: General Requirements and Tests"; Refer to GB/T 7922-2008 "Method of Measuring the Color of Light Sources Color of Lighting Source"; Refer to GB/T 24824-2009 "Measurement Methods of LED Modules for General Lighting"; Refer to GB/T 8468-2008 General Requirements for Photometry and Goniophotometry of Luminaires; Refer to GB/T 7002-2008 Photometry for Floodlight; Refer to GB/T 2423.3-2008 "Test C: Damp Heat, Steady State, IDT"; Refer to the Management Specification of Guangdong Province for LED Lighting Product Benchmarking System | | | |
| Reliability test conditions | High temperature of 65°C, humidity 93%, low temperature -40°C environment lighting aging test. | High temperature 85°C, humidity 85%, lighting aging test. | High temperature 85°C, humidity 85%, storage test for 1000H. | |

| Item | Inspection basis | Test result determination |
|--|--|---------------------------|
| Identification (product name, model, voltage, power, frequency, IP protection grade, electric shock protection category, manufacturer) | Clause 3.2 of GB7000.1-2015 and corresponding sub-standards | Pass |
| External wiring and internal wiring (external wiring model, sectional area) | Clauses 5.2.1 and 5.2.2 of GB7000.1-2015 and corresponding sub-standards | Pass |
| Insulation resistance and electrical strength, touch current and protective conductor current (including 48-hour moisture test) | Clause 10 of GB7000.1-2015 and corresponding sub-standards | Pass |
| High and low temperature cycle, IP66 waterproof test | High temperature 65°C, humidity 93%, RH ~ low temperature -40°C. Hold for 2H each, carry out cyclic test, and carry out IP66 waterproof test (one waterproof test) after the equipment returns to 65°C for 30 minutes; a total of 10 cycles. | Pass |
| Windproof detection, and safety performance detection of installation accessories (anti-falling safety hinges) | GB7000.7-2005 Safety Requirements for Floodlights; Clause 4.14.1 of GB7000.1-2015 | Pass |
| Corrosion resistance test | GB/T 10125-2012 salt spray test 48H | Pass |
| 9kHz-30MHz power supply terminal disturbance voltage | Clause 4.3 of GB/T 17743-2017 | Pass |
| 9kHz-30MHz radiated electromagnetic disturbance | Clause 4.4.1 of GB/T 17743-2017 | Pass |
| 30MHz-300MHz radiated electromagnetic disturbance | Clause 4.4.2 of GB/T 17743-2017 (Anechoic Chamber Method) | Pass |
| Harmonic current emissions | Clause 7.3 of GB/T 17625.1-2012 | Pass |
| Electrostatic | Clause 5.2 of GB/T 18595-2014 GB/T 17626.2-2006 | Pass |
| Radiation immunity | Clause 5.3 of GB/T 18595-2014 GB/T 17626.3-2016 | Pass |
| Surge | Clause 5.7 of GB/T 18595-2014 GB/T 17626.5-2008 | Pass |

PIXEL LIGHT – GENERAL MOUNTING METHOD

Installation with steel wires.

1. Install the mounting seat on steel wires.
2. Buckle the pixel light onto the mounting seat.
3. Finished Diagram.

Installation with mounting seats

1. Fix the mounting seat on the mounting carrier by screws.
2. Buckle the pixel light on the mounting seat.
3. Finished Diagram.

Installation with single-side profiles

1. Lay the power line and network cable at the location of the pixel light
2. Place the light installed profile on the mounting carrier

3. Fix the single-side profile on the mounting carrier by screws
4. Finished Diagram

Installation with two-side profile

1. Fix the rear cover of the profile on the mounting carrier
2. Lay the power line and network cable within rear back of the profile
3. Cover the profile

4. Fix the surface cover and rear cover at both sides with screws
5. Finished Diagram

Installation with front clip

1. Buckle the front clip on the mounting plate
2. Fixed pixel light

Installation with screws or adhesive

1. Fix the light on the carrier by screws or adhesive (completed on site)

EXC-P21AP1

AP Series - Profile Installation

EXC-P21AP1 full-color series consists of professional ultra-narrow chip LED pixel lights specially designed by EXC for outdoor high-rise landscape lighting. It adopts top-level optical vision angle design, super remote multi-color and visual brightness consistency technology and close range anti-glare design. Each pixel is a separate four-primary lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; the installation methods are various.

Product Features

- New-generation DMX512 parallel bus technology
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

Product Size Unit: mm

Light Distribution Curve

The blue curve is a schematic curve for light intensity.

Schematic Diagram of Installation Method

Installation with profiles

| Basic Specifications | |
|-------------------------|---|
| Color | W/RGB/RGB+W |
| Light source | SMD W/RGB 3in1 LED |
| Life | 35,000h |
| Material | flame-retardant and weatherproof engineering plastic /PC lens |
| Weight | 25g |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC15V/24V |
| Maximum power | 1.8W |
| Optical parameters | |
| Beam angle | ≥ 105° |
| Controller | |
| Main Controller | EXC-Y220series, EXC-Y880series, EXC-M520series, EXC-5200series, EXC-6000series, EXC-8000series, EXC-10000series..... |
| Sub Controller | EXC-S880, EXC-2905..... |

Available Models

| Product model | Working voltage | Power | Light source | Angle | Control protocol | Gray scale | Material | Central light intensity | LED brand |
|---------------|-----------------|-------|--------------|-------|------------------|------------|----------------------|-------------------------|-----------|
| P21AP1 | DC15V | 1.2W | 4xW | 105° | ON/OFF | / | Engineering plastics | ≥20cd | Note 1 |
| P21AP1 | DC15V | 0.9W | 4xRGB | 105° | DMX512 | 256/65536 | Engineering plastics | ≥7.5cd | Note 1 |
| P21AP1 | DC24V | 1.5W | 6xRGB | 105° | DMX512 | 256/65536 | Engineering plastics | ≥12cd | Note 1 |
| P21AP1 | DC24V | 1.8W | 4xRGB+2xW | 105° | DMX512 | 256/65536 | Engineering plastics | ≥15cd | Note 1 |

Note 1: LED Brand: Cree/Osram/Lumileds/Taiwan/Mainland Note 2: Above optical parameter > 2700K, Cree/Osram/Lumileds

EXC-P25AP2

AP Series - Profile Installation

EXC-P25AP2 full-color series consists of professional ultra-narrow chip LED pixel lights specially designed by EXC for outdoor high-rise landscape lighting. It adopts top-level optical vision angle design, super remote multi-color and visual brightness consistency technology and close range anti-glare design. Each pixel is a separate four-primary lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; the installation methods are various.

Product Features

- New-generation DMX512 parallel bus technology
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Lamp shell snap installation, simple and compact cooperation, with profile installation
- Support DC48V remote power supply technology

Product Size Unit: mm

EXC-P43AP2

AP Series - Profile Installation

EXC-P43AP2 full-color series consists of full-color chip LED string pixel lights specially designed by EXC for outdoor landscape lighting. Each pixel is a separate lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; installation with profiles.

Product Features

- New-generation DMX512 parallel bus technology
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Support DC48V remote power supply technology

Product Size Unit: mm

Light Distribution Curve

The blue curve is a schematic curve for light intensity.

Schematic Diagram of Installation Method

Installation with profiles

| Basic Specifications | |
|-------------------------|---|
| Color | W/RGB/RGB+W |
| Light source | SMD W/RGB 3in1 LED |
| Life | 35,000h |
| Material | flame-retardant and weatherproof engineering plastic /PC lens |
| Weight | 40g |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC15V/24V/48V |
| Maximum power | 1.8W |
| Optical parameters | |
| Beam angle | ≥110° |
| Controller | |
| Main Controller | EXC-Y220series,EXC-Y880series,EXC-M520series, EXC-5200series,EXC-6000series,EXC-8000series, EXC-10000series..... |
| Sub Controller | EXC-S880,EXC-2905..... |

Available Models

| Product model | Working voltage | Power | Light source | Angle | Control protocol | Gray scale | Material | Central light intensity | LED brand |

EXC-P46AP2

AP Series - Profile Installation

EXC-P46AP2 full-color series consists of full-color chip LED string pixel lights specially designed by EXC for outdoor landscape lighting. It adopts top-level optical vision angle design, super remote multi-color and visual brightness consistency technology and precision control. Each pixel is a separate four-primary lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; the installation methods are various.

Product Features

- New-generation DMX512 parallel bus technology
- High gray scale, high wash, no-strobe design, delicate and soft colors
- Top-level optical vision angle, near and remote multi-color and visual brightness consistency design.
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Support DC48V remote power supply technology

Product Size Unit: mm

EXC-P35BP0

BP Series-Installation with mounting seats/front clip/steel wires

EXC-P35BP0 series are a SMT LED transparent pixel light specially designed by EXC for outdoor landscape lighting. Each pixel is a separate lighting pixel. They can be used for product display, atmosphere decoration, scene ornament, man-machine interaction, smart home and other fields; the pixel pitch can be customized.

Product Features

- New-generation DMX512 parallel bus technology
- Integrated clip-on endless connection
- High transparency, high waterproof, high appearance level design
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

Product Size Unit: mm

EXC-P22GP4

GP Series-Installation with mounting seats/front clip/steel wires

EXC-P22GP4 full-color series consists of professional ultra-narrow chip LED pixel lights specially designed by EXC for outdoor high-rise landscape lighting. It adopts top-level optical vision angle design, super remote multi-color and visual brightness consistency technology and close range anti-glare design. Each pixel is a separate four-primary lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building façades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; the installation methods are various.

Product Features

- New-generation DMX512 parallel bus technology
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Support DC48V remote power supply technology

Product Size Unit: mm

EXC-P42GP3

GP Series-Installation with mounting seats/front clip/steel wires

EXC-P42GP03 series consists of full-color chip LED string pixel lights specially designed by EXC for outdoor landscape lighting. Each pixel is a separate lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building façades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; the installation methods are various.

EXC-P85DM0

DM Series- Installation by Screws /Adhesive

EXC-P85DM0 series consists of full-color chip LED string pixel lights specially designed by EXC for outdoor landscape lighting. It adopts top-level optical vision angle design, super remote multi-color and visual brightness consistency technology and precision control. Each pixel is a separate four-primary color lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building façades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; the installation methods are various.

Product Features

- New-generation DMX512 parallel bus technology
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- The product is flexible, adaptable to various application conditions with optional installation methods.

Note 1:LED Brand: Cree/Osram/Lumileds/Taiwan/Mainland Note2: Above optical parameter > 2700K,Cree/Osram/Lumileds

Product Features

- New-generation DMX512 parallel bus technology
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Support DC48V remote power supply technology

Product Size Unit: mm

Light Distribution Curve

The blue curve is a schematic curve for light intensity.

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V/48V |
| Maximum power | 6W |
| Optical parameters | |
| Beam angle | ≥ 110° |
| Controller | |
| Main Controller | EXC-Y220series,EXC-Y880series,EXC-M520series, EXC-5200series,EXC-6000series,EXC-8000series, EXC-10000series..... |
| Sub Controller | EXC-S880,EXC-2905..... |

EXC-P95DM1

DM Series- Installation by Screws /Adhesive

EXC-P95DM1 series consists of full-color chip LED string pixel lights specially designed by EXC for outdoor landscape lighting. It adopts top-level optical vision angle design, super remote multi-color and visual brightness consistency technology and precision control. Each pixel is a separate four-primary color lighting pixel, and each pixel can realize 65536 grades gray scale changing; they can be used for extra-large area display of building façades, contour shaping, interior and exterior surface decoration lighting; the pixel pitch can be customized; the installation methods are various.

Product Features

- New-generation DMX512 parallel bus technology
- High gray scale, high wash, no-strobe design, delicate and soft colors
- Integrated clip-on endless connection
- Fully sealed and waterproof design with high thermal conductive adhesive imported from Germany
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

Product Size Unit: mm

Light Distribution Curve

The blue curve is a schematic curve for light intensity.

| Basic Specifications | |
|-------------------------|---|
| Color | W/RGB+W |
| Light source | SMD W/RGB 3in1 LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/PC lens |
| Weight | 600g |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V |
| Maximum power | 15W |
| Optical parameters | |
| Beam angle | ≥120° (Transparent cover) |
| Controller | |
| Main Controller | EXC-Y220series,EXC-Y880series,EXC-M520series, EXC-5200series,EXC-6000series,EXC-8000series, EXC-10000series..... |

WALL WASHER LIGHT SERIES

MAIN TECHNICAL ADVANTAGES OF PRODUCTS

Lighting Control

State feedback: Supportive of the standard RDM and user-defined fault feedback protocol, capable of real-time feedback of such information as lamp operating voltage, temperature, current, power, manufacturer, etc.

High gray scale and high refresh rate: Gray scaling of more than 65536 grades; refresh rate of over 4K; no strobe during video shooting.

Dynamic light distribution: Intelligent dynamic adjustment of lightness by 10%-100% without any loss in gray scale; Adaptive brightness to different seasons and application scenarios without changing gray scale.

Power-on color: Capable of displaying any color in real-time tests under the condition of no signal; allowing emergency commissioning in the early stage of the project.

Wide-voltage power supply: Supportive of DC15-48V safe wide-voltage power supply scheme, completely solving the problem of voltage drop in long-distance power supply of high-rise buildings.

Optical Characteristics

Polarization: Equipped with the optical lens independently developed by EXC, providing comparatively high optical efficacy, wall washing height and consistency, free from color patch.

Wide view distance: Multi-level optical design, improving the optical efficacy and the near-far brightness consistency, an assurance for the harmony, health and comfort of light shows.

Lamp Structure

Thermal drive separation: Unique patented structural design, greatly improving heat dissipation efficiency and reliability.

Harmony with the surroundings in color: the color of the lamp body perfectly blends with the architectural background, weakening the influence of the lamp body on the appearance of the buildings.

Self-cleaning design: Unique lens design, avoiding accumulation of dust and sundries when used outdoors.

Automatic process: Subject to the automatic process design, greatly improving the production capacity, shortening the delivery period and improving the reliability of product quality.

WALL WASHER LIGHT NAMING RULE

| Product classification | Lamp width | Installation characteristics | Derivative feature | High and low pressure |
|------------------------|--|---|--|------------------------------------|
| W: wall washer light | Named after the width of the product, in mm. | F: Ultra-thin wall washer light H: High optical efficiency wall washer light G: Built-in anti-glare wall washer light D: Diamond wall washer light | B: basic model; L: with wings; R: Glare Shield | L: low voltage; H: high voltage |

Testing and verification of wall washer light series products (taking W45CBL 36W 3000K as an example)

| Reliability test items | High and low temperature cyclic lighting aging test | Double-85 lighting accelerated aging test | Dual-85 storage test |

EXC-CW22

C series-Preferred wall washer light

EXC-CW22 series is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC-LED. The strip low-power wall washer light can be used to paint specific lighting areas or landscapes, and is used in building facades, bridges, stage, etc.; the length of the lamp can provide a variety of specifications to choose from.

Product Features

- Ultra-narrow design, width is only 22 mm
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Waterproof design of full potting with German imported glue
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 0.5-1 meter

Product Size Unit: mm

Schematic Diagram of Installation Method

Use M4 expansion screws to fix the mounting seats to the required positions as shown in the figure. The specific spacing shall be length of lights.

| Electrical parameters | |
|-----------------------|--------|
| Operating Voltage | DC24V |
| Maximum power | 12W |
| Optical parameters | |
| Beam angle | 25°40° |
| Controller | |
| Main Controller | - |
| Sub Controller | - |

Light Distribution Curve

| Basic Specifications | |
|-------------------------|--|
| Color | W |
| Light source | SMD W LED |
| Life | 35,000h |
| Material | High-strength aluminum alloy/aluminum cover/transparent lamp cover |
| Weight | 0.58kg(PC cover) |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

Available Models

| Product model | Working voltage | Power | Light source | Angle | Control protocol | Gray scale | Material | Energy efficiency value | LED brand |
|---------------|-----------------|-------|--------------|--------|------------------|------------|------------------|-------------------------|-----------|
| CW22CBL | DC24V | 12W | 36xW | 25°40° | ON/OFF | / | Aluminum housing | ≥65 lm/w | Note 1 |
| CW22CBL | DC24V | 12W | 48xW | 25°40° | ON/OFF | / | Aluminum housing | ≥65 lm/w | Note 1 |

Note 1: LED Brand: Cree/Osram/Lumileds/Taiwan/Mainland Note 2: Above optical parameter > 2700K, Cree/Osram/Lumileds

EXC-CW30

C series-Preferred wall washer light

EXC-CW30 series is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC-LED. The strip low-power wall washer light can be used to paint specific lighting areas or landscapes, and is used in building facades, bridges, stage, etc.; the length of the lamp can provide a variety of specifications to choose from.

Product Features

- Ultra-narrow design, width is only 30 mm
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Full structure waterproof design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 1-1.5 meter

Product Size Unit: mm

Light Distribution Curve

| Basic Specifications | |
|-------------------------|---|
| Color | W |
| Light source | SMD W LED |
| Life | 35,000h |
| Material | High-strength aluminum alloy/tempered glass |
| Weight | 0.75kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

Schematic Diagram of Installation Method

Use M4 expansion screws to fix the mounting seats to the required positions as shown in the figure. The specific spacing shall be length of lights.

| Electrical parameters | |
|-----------------------|-------|

EXC-CW35

C series-Preferred wall washer light

EXC-CW35 series is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting, strip high-power wall washer light lamp; it can be used in specific lighting areas or landscape coloring, and is applied to building facades and bridges. , Stage, etc.; the length of the lamp can provide a variety of specifications to choose from.

Product Features

- Light, thin, simple design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Unique waterproof design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 1-2 meters

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Use M6 expansion screws to fix the mounting seats to the required positions as shown in the figure. The specific spacing shall be length of lights. Mounting base fixes screws.

| Electrical parameters | |

EXC-CW45

C series-Preferred wall washer light

EXC-CW45 series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC-LED. The strip shape can be used for specific lighting areas or landscape coloring. It is applied to building facades, bridges, stages, etc. The degree can provide a variety of specifications to choose from.

Product Features

- Light, thin, simple design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Unique waterproof design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 3-5 meters

Product Size Unit: mm

EXC-CW72

C series-Preferred wall washer light

EXC-CW72 series is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC-LED. It can be used in specific lighting areas or landscape coloring, and is applied to building facades, bridges, stages, etc.; the length of the lamp can be provided A variety of specifications are available.

Product Features

- Patented comb convection heat dissipation design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Unique waterproof design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 5-7 meters

Product Size Unit: mm

Schematic Diagram of Installation Method

Use M6 expansion screws to fix the mounting seats to the required positions as shown in the figure. The specific spacing shall be length of lights.

EXC-W30B

Universal wall washer light

The EXC-W30B is a high-strength aluminum alloy shell, strip-shaped low-power wall washer light light designed for outdoor landscape lighting by EXC-LED. It can be used for color painting in specific lighting areas or landscapes, and is applied to building facades, bridges, Stages, etc.; various lengths of lamps and lanterns are optional.

Product Features

- Patented comb convection heat dissipation design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- New-generation DMX512 Parallel Bus Technology
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 0.5-1 meter

Product Size Unit: mm

Schematic Diagram of Installation Method

Use M4 expansion screws to fix the mounting seats to the required positions as shown in the figure. The specific spacing shall be length of lights.

EXC-W42B

Universal wall washer light

The EXC-W42B full-color controllable series is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC-LED. It is a strip full-color high-power wall washer light. Each lamp is an independent pixel, and each pixel can be realized 65536-level gray scale changes; it can be used to color specific lighting areas or landscapes, building facades, bridges, stages, etc.; the length of the lamps can be provided in a variety of specifications.

Product Features

- New-generation DMX512 Parallel Bus Technology
- Patented comb convection heat dissipation design
- Low thermal resistance path heat dissipation design
- Unique waterproof and breathable design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 1-2 meters

Product Size Unit: mm

EXC-W30E

Universal wall washer light

The EXC-W30E is a high-strength aluminum alloy shell, strip-shaped side outlet low-power wall washer light light designed specifically for outdoor landscape lighting. Bridges, stages, etc.; various lengths of lamps are optional.

Product Features

- High-strength aluminum alloy lamp body, low thermal resistance heat dissipation design
- New-generation DMX512 Parallel Bus Technology
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Side outlet structure design, adapt to specific installation environment
- Wall washing height: 1-2 meters

Product Size Unit: mm

EXC-W45S

S series-IP68 wall washer light

EXC-W45S full-color series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC-LED. The strips can be used for specific lighting areas or landscape coloring, and are applied to building facades, bridges, stages, etc.; The length of the lamp can provide a variety of specifications to choose from.

Product Features

- New-generation DMX512 Parallel Bus Technology
- Patented comb convection heat dissipation design
- Low thermal resistance path heat dissipation design
- Unique waterproof and breathable design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 3-5 meters

Product Size Unit: mm

EXC-W45K

Universal wall washer light

EXC-W45K full-color series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by AICA. The strips can be used for specific lighting areas or landscape coloring, and are applied to building facades, bridges, stages, etc.; The length of the lamp can provide a variety of specifications to choose from.

Product Features

- New-generation DMX512 Parallel Bus Technology
- Patented comb convection heat dissipation design
- Compatible with built-in honeycomb anti-glare and optical diffusion film applications
- Low thermal resistance path heat dissipation design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 3-5 meters

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Use M4 expansion screws to fix the mounting seats to the required positions as shown in the figure. The specific spacing shall be length of lights.

| Basic Specifications | |
|-------------------------|---|
| Color | W/RGB/RGBW |
| Light source | SMD W/RGB 3in1 LED/RGBW 4in1 LED |
| Life | 35,000h |
| Material | High-strength aluminum alloy/tempered glass |
| Weight | 1.81Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V |
| Maximum power | 48W |
| Optical parameters | |
| Beam angle | 10°, 12x22°, 16°*50°, other angles are optional |
| Controller | |
| Main Controller | EXC-Y220series, EXC-Y880series, EXC-M520series, EXC-5200series, EXC-6000series, EXC-8000series, EXC-10000series..... |
| Sub Controller | EXC-S880, EXC-2905..... |

Available Models

| Product model | Working voltage | Power | Light source | Angle | Control protocol | Gray scale | Material | Energy efficiency value | LED brand |
|---------------|-----------------|-------|--------------|---|------------------|------------|------------------|-------------------------|-----------|
| W45KBL | DC24V | 36W | 36xW | 10/12°*22/12°*45/15/16°*50/20/20°*40/30/45/60° | ON/OFF | / | Aluminum + Glass | ≥75 lm/w | Note 1 |
| W45KBL | DC24V | 48W | 24xW | | ON/OFF | / | Aluminum + Glass | ≥75 lm/w | Note 1 |
| W45KBL | DC24V | 36W | 24xRGB | 10/12°*22/12°*45/15/16°*50/20°*40/20°*50/20/30/45/60° | DMX512 | 65536 | Aluminum + Glass | ≥30 lm/w | Note 1 |

EXC-W42G

G series-Internal anti-glare wall washer light

EXC-W42G product is a high-strength aluminum alloy shell, strip-shaped high-power wall washer specially designed for outdoor landscape lighting by EXC-LED. Stages, etc.; various lengths of lamps and lanterns are optional.

Product Features

- Simple appearance, built-in grille for anti-glare
- High-strength aluminum alloy lamp body, low thermal resistance heat dissipation design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- New-generation DMX512 Parallel Bus Technology
- Wall washing height: 2-3 meters

Product Size Unit: mm

Light Distribution Curve

| Basic Specifications | |
|-------------------------|--|
| Color | W |
| Light source | SMD W LED |
| Life | 35,000h |
| Material | High-strength aluminum alloy/aluminum cover/transparent lamp cover |
| Weight | 1.74kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

Schematic Diagram of Installation Method

Use M6 expansion screws to fix the mounting seats to the required positions as shown in the figure. The specific spacing shall be length of lights.

| Electrical parameters | |
|-----------------------|---|
| Operating Voltage | DC24V |
| Maximum power | 36W |
| Optical parameters | |
| Beam angle | 15°, 15°*25°, other angles are optional |
| Controller | |
| Main Controller | - |
| Sub Controller | - |

Available Models

| Product model | Working voltage | Power | Light source | Angle | Control protocol | Gray scale | Material | Energy efficiency value | LED brand |

Note 1: LED Brand: Cree/Osram/Lumileds/Taiwan/Mainland Note 2: Above optical parameter > 2700K, Cree/Osram/Lumileds

EXC-W52H

H series-high luminous efficiency wall washer light

EXC-W52H product is a high-strength aluminum alloy shell, strip-shaped high-power wall washer designed specifically for outdoor landscape lighting, stages, etc.; various lengths of lamps and lanterns are optional.

Product Features

- Non-glass light-emitting surface design, unique shape
- Lamp energy efficiency value exceeds 140 lm/w
- One-piece N in one lens, full structure waterproof
- A variety of mounting brackets to meet different installation environments
- Wall washing height: 3-5 meters

Product Size Unit: mm

Light Distribution Curve

EXC-W50D

D series-diamond wall washer light light

The EXC-W50D product is a high-strength aluminum alloy shell, strip-shaped high-power wall washer designed for outdoor landscape lighting by EXC-LED. It can be used for color painting in specific lighting areas or landscapes. Stage, etc.; various lengths of lamps and lanterns are optional.

Product Features

- Unique appearance, diamond-shaped end face
- High-strength aluminum alloy lamp body, low thermal resistance heat dissipation design
- New-generation DMX512 Parallel Bus Technology
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 2-4 meters

Product Size Unit: mm

EXC-W50F

F series-ultra-thin wall washer light light

The EXC-W50F product is a high-strength aluminum alloy shell, ultra-thin strip-shaped high-power wall washer light designed for outdoor landscape lighting by EXC-LED. It can be used in specific lighting areas or landscape coloring, and is applied to building facades, bridges, stage, etc.; There are various lengths of lamps and lanterns to choose from.

Product Features

- Ultra-thin design thickness of 18mm, easy to hide the lamp to meet the application scenario of "seeing the light but not the lamp"
- Inside outlet, connection line hidden installation
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- High-quality aluminum alloy material and lock type structure waterproof design, waterproof grade Ip66
- Wall washing height:1-2 meters

Product Size Unit: mm

Light Distribution Curve

EXC-W80F

Universal wall washer light

EXC-W80F product is a high-strength aluminum alloy shell, ultra-thin strip high-power wall washer designed for outdoor landscape lighting by EXC-LED. It can be used for specific lighting areas or landscape coloring, and is applied to building facades, bridges, stage, etc.; There are various lengths of lamps and lanterns to choose from.

Product Features

- Simple appearance, full-flat design of luminous surface
- High-strength aluminum alloy lamp body, low thermal resistance heat dissipation design
- New-generation DMX512 Parallel Bus Technology
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Wall washing height: 7-10 meters

Product Size Unit: mm

Light Distribution Curve

FLOOD LIGHT SERIES

MAIN TECHNICAL ADVANTAGES OF PRODUCTS

Lighting Control

State feedback: Supportive of the standard RDM and user-defined fault feedback protocol, capable of real-time feedback of such information as lamp operating voltage, temperature, current, power, manufacturer, etc.

High gray scale and high refresh rate: Gray scaling of more than 65536 grades; refresh rate of over 4K; no strobe during video shooting.

Dynamic light distribution: Intelligent dynamic adjustment of lightness by 10%-100% without any loss in gray scale; Adaptive brightness to different seasons and application scenarios without changing gray scale.

Power-on color: Capable of displaying any color in real-time tests under the condition of no signal; allowing emergency commissioning in the early stage of the project.

Wide-voltage power supply: Supportive of DC15-48V safe wide-voltage power supply scheme, completely solving the problem of voltage drop in long-distance power supply of high-rise buildings.

Optical Characteristics

Polarization: Equipped with the optical lens independently developed by EXC, providing comparatively high optical efficacy, wall washing height and consistency, free from color patch.

Wide view distance: Multi-level optical design, improving the optical efficacy and the near-far brightness consistency, an assurance for the harmony, health and comfort of light shows.

Lamp Structure

Thermal drive separation: Unique patented structural design, greatly improving heat dissipation efficiency and reliability.

Harmony with the surroundings in color: the color of the lamp body perfectly blends with the architectural background, weakening the influence of the lamp body on the appearance of the buildings.

Self-cleaning design: Unique lens design, avoiding accumulation of dust and sundries when used outdoors.

Automatic process: Subject to the automatic process design, greatly improving the production capacity, shortening the delivery period and improving the reliability of product quality.

FLOOD LIGHT NAMING RULE

| Product classification | Lamp width | Series characteristics | Derivative property | High/low voltage |
|------------------------|---|----------------------------|--|------------------------------------|
| B: Flood light | Named based on the width of the product, in mm. | Serial code: A, B, C ... Z | B: basic model; L: with wings; R: Glare Shield | L: low voltage; H: high voltage |

Testing and verification of Flood light series products (taking B265BBL 72W 3000K as an example)

| Reliability test items | High and low temperature cyclic lighting aging test | Double-85 lighting accelerated aging test | Dual-85 storage test |
|-----------------------------|--|---|--|

EXC-CB145

Series C-Optimization
Flood Light

EXC-CB145 Series consists of square full-color lights with high-strength aluminum-alloy housing specially designed by EXC for outdoor landscape wash lighting, applicable on building facades, bridges, stages, etc.

EXC-CB145CBH

EXC-CB145CBL

Product Features

- New Generation DMX512 Parallel bus technology
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Snap-on glass structure waterproof
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 3-15 meters

Product Size Unit: mm

EXC-CB145CBH

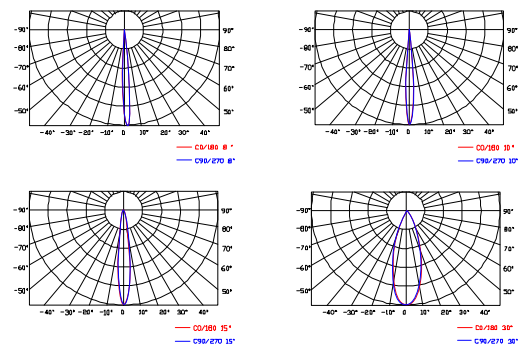

EXC-CB145CBL

Schematic Diagram of Installation Method

Use M6 screws to fix the lamp mounting bracket to the required position as shown in the figure, and tighten the mounting seat fixing screws. After adjusting the angle of the lamp, tighten the link screw. Note that the installation is firm.

Light Distribution Curve

| Basic Specifications | |
|-------------------------|--|
| Color | W/RGB/RGBW |
| Light source | SMD R/G/B/W LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | CB145CBH:1.90Kg CB145CBL:1.20Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | CB145CBH:AC220V CB145CBL:DC24V |
| Maximum power | 36W |
| Optical parameters | |
| Beam angle | 6°, 8°, 10°, 15°, 30°, other angles are optional |
| Controller | |

EXC-B120T

Series T ultra-thin flood light

EXC-B120T flood light full-color series products are a kind of high-strength aluminum alloy shell, ultra-thin flat-panel flood light by EXC for specific lighting areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Product Features

- Chinese style, with seals and calligraphy paper (one of the four great inventions) as design elements
- Minimalist, ultra-thin design, product thickness is only 15mm
- Combination of modern technology, numbers and traditional Chinese culture, calligraphy and seals
- Load safety design
- Projection height: 3 meters

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Use two M6 screws to fix the lamp mounting bracket to the required position as shown in the figure, and tighten the mounting seat fixing screws. After adjusting the angle of the lamp, tighten the link screw. Note that the installation is firm.

| Basic Specifications | |
|-------------------------|--|
| Color | W/RGB |
| Light source | SMD R/G/B/W LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | 0.6Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V |
| Maximum power | 15W |
| Optical parameters | |
| Beam angle | 15°, 20°, 30°, other angles are optional |
| Controller | |

Note 1: LED Brand: Cree/Osram/Lumileds/Taiwan/Mainland Note 2: Above optical parameter > 2700K, Cree/Osram/Lumileds

EXC-B50A

General flood light

EXC-B50A floodlight full-color series Series consists of full-color low-power spotlights, using CREE chips, with high-strength aluminum-alloy housing special designed by EXC for outdoor lighting. Each light is a separate lighting pixel, and each pixel can realize 65536 grades gray scale changing. It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Product Features

- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 1 meter

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Place the lamp on the carrier to be pre-installed, and confirm the lamp spacing requirements. Fix the bracket as shown. The screw is locked on the carrier, and the fixing screw of the mounting base is locked. Pay attention to the installation and adjustment of the lamps angle of illumination.

| Basic Specifications | |
|-------------------------|--|
| Color | W |
| Light source | SMD W LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | 0.40Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V |
| Maximum power | 3W |
| Optical parameters | |

Available Models

| Product model | Working voltage | Power | Light source | Angle | Control protocol | Gray scale | Material | Energy efficiency value | LED brand |
|---------------|-----------------|-------|--------------|-------------------------|------------------|------------|------------------|-------------------------|-----------|
| B50ABL | DC24V | 3W | 1xW | 8/10/15/20/30/45/60/80° | ON/OFF | / | Aluminum + Glass | ≥65 lm/w | Note 1 |
| B50ABL | DC24V | 3W | 1xW | 8/10/15/20/30/45/60/80° | DMX512 | 256/65536 | Aluminum + Glass | ≥65 lm/w | Note 1 |

Note 1: LED Brand: Cree/Osram/Lumileds/Taiwan/Mainland Note 2: Above optical parameter > 2700K, Cree/Osram/Lumileds

EXC-B60A

General flood light

The EXC-B60A floodlight series is a high-strength aluminum alloy specially designed for outdoor landscape lighting. Shell, full-color high-power extremely narrow spotlight, with 3° professional lens, each lamp is an independent pixel, each pixel can achieve 65536 gray scale changes; It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

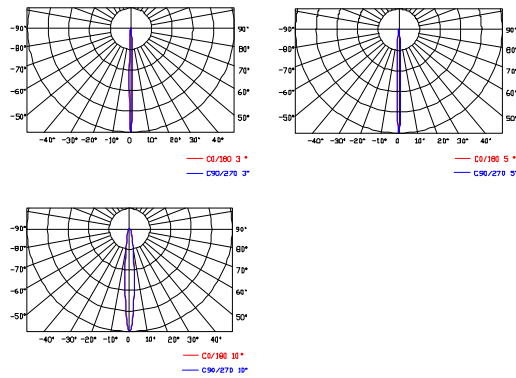

Product Features

- Ultra-narrow beam angle design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 5 meters

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Place the lamp on the carrier to be pre-installed, and confirm the lamp spacing requirements. Fix the bracket fixing screw as shown in the figure. The wire is locked on the carrier, and the fixing screw of the mounting base is locked. Pay attention to the installation firmly and adjust the lighting to be illuminated angle.

| Basic Specifications | |
|-------------------------|--|
| Color | W/RGBW |
| Light source | SMD W/RGBW 4in1 LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | 0.50Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V |
| Maximum power | 5W (W), 7.5W (RGBW) |

EXC-B62ARL

Flood light

The Bird flood light series is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC. The arc self-cleaning floodlight could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Product Features

- Tired of flying home, and finally understand the happiness of waiting
- Smart bionic modeling, integrated with the environment
- Unique humanized anti-glare cut-off design
- Multi-angle light distribution can be realized, and the dark area at the bottom can be completely eliminated
- Unique lens design can achieve special effect requirements such as ultra-narrow, ultra-distant, and ultra-bright
- Innovative pressure balance waterproof design, protection grade Ip66
- Low thermal resistance path heat dissipation design, higher lamp life and reliability
- High corrosion resistance die-cast aluminum housing, with excellent heat dissipation and anti-corrosion performance

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Place the lamp on the carrier to be pre-installed, and confirm the lamp spacing requirements. Tighten the bracket fixing screws on the carrier as shown in the figure, and tighten the mounting base fixing screws. Pay attention to the firm installation and adjust the angle of the lamp to be illuminated.

| Basic Specifications | |
|-------------------------|--|
| Color | W |
| Light source | SMD W LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | 0.7Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V |
| Maximum power | 9W |
| Optical parameters | |
| Beam angle | 10°, 15°, 30°, other angles are optional |
| Controller | |
| Main Controller | EXC-Y220series, EXC-Y880series, EXC-M520series, EXC-5200series, EXC-6000series, EXC-8000series, EXC-10000series..... |
| Sub Controller | EXC-S880, EXC-2905..... |

Available Models

| Product model | Working voltage | Power | Light source | Angle | Control protocol | Gray scale | Material | Energy efficiency value | LED brand |
|---------------|-----------------|----------|--------------|--------------------|------------------|------------|------------------|-------------------------|-----------|
| EXC-B62ARL | DC24V | 3W/6W/9W | 3x 1-3W-W | 10/15/20/30/45/60° | DMX512 | 256/65536 | Aluminum + Glass | ≥65 lm/w | Note 1 |
| EXC-B62ARL | DC24V | 3W/6W/9W | 3x 1-3W-W | 10/15/20/30/45/60° | ON/OFF | / | Aluminum + Glass | ≥65 lm/w | Note 1 |

Note 1: LED Brand: Cree/Osram/Lumileds/Taiwan/Mainland Note2: Above optical parameter > 2700K, Cree/Osram/Lumileds

EXC-B65A

General flood light

EXC-B65A floodlight full-color series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC, full-color high-power spotlights, each lamp is an independent pixel, and each pixel can achieve 65536 level gray scale changes; It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Product Features

- New Generation DMX512 Parallel Bus Technology Design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 3 meters

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Place the lamp on the carrier to be pre-installed, and confirm the lamp spacing requirements. Fix the bracket as shown. The screw is locked on the carrier, and the fixing screw of the mounting base is locked. Pay attention to the installation and adjustment of the lamps and lanterns. The angle of illumination.

| Basic Specifications | |
|-------------------------|--|
| Color | W/RGB |
| Light source | SMD R/G/B/W LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | 0.59Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | DC24V |
| Maximum power | 7.5W |
| Optical parameters | |
| Beam angle | 15°, 60°, other angles are optional |
| Controller | |
| Main Controller | EXC-Y220series, EXC-Y880series, EXC-M520series, EXC-5200series, EXC-6000series, EXC-8000series, EXC-10000series..... |

EXC-B80A

General flood light

EXC-B80A flood light full-color series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC, full-color high-power spotlights. Each light is a separate lighting pixel, and each pixel can realize 65536 grades gray scale changing. It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

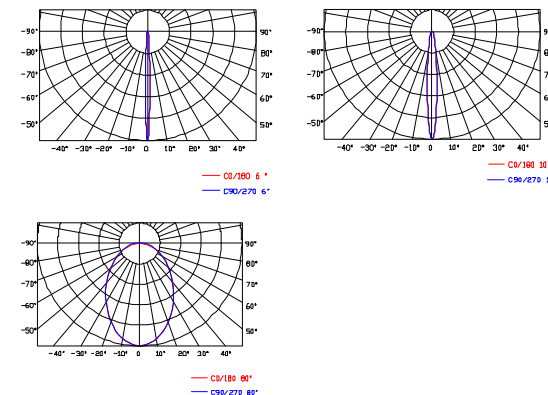

Product Features

- Ultra-narrow beam angle design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 3 meters

Product Size Unit: mm

EXC-B125B

General flood light

EXC-B125B floodlight full-color series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC. The square full-color floodlight could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

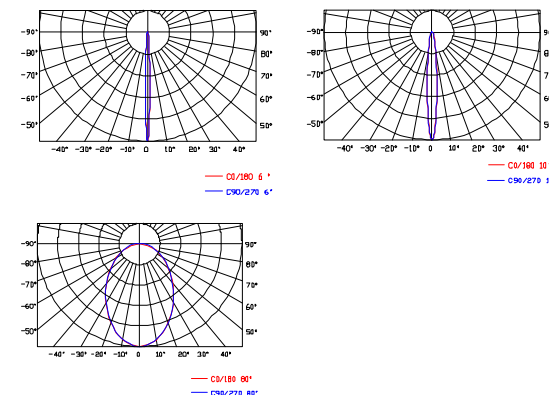

Product Features

- Ultra-narrow beam angle design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 5 meters

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Use M5 screws to fix the lamp mounting bracket to the required position as shown in the figure. After the lamp is firmly installed, adjust the angle of the lamp according to actual needs and then lock the connection screws.

| Basic Specifications | |

EXC-B150B

General flood light

EXC-B150B floodlight full color series products are a high-strength aluminum alloy shell designed specifically for outdoor landscape lighting by EXC, square full-color floodlights. Each light is a separate lighting pixel, and each pixel can realize 65536 grades gray scale changing. It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Special for small angle

Product Features

- New generation DMX512 parallel bus technology design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 7 meters

Product Size Unit: mm

EXC-B210B

General flood light

EXC-B210 floodlight full-color series products are a square high-strength aluminum alloy shell designed specifically for outdoor landscape lighting by EXC. It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Product Features

- New generation DMX512 parallel bus technology design
- Patented comb-shaped convection heat dissipation design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design, projection height: 15 meters

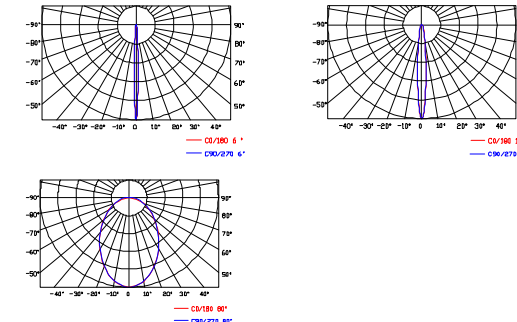

Product Size Unit: mm

EXC-B265B

General flood light

The EXC-B265 floodlight full-color series product is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC. The square full-color floodlight could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

Product Features

- New generation DMX512 parallel bus technology design
- Patented comb-shaped convection heat dissipation design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design, projection height: 20 meters

Product Size Unit: mm

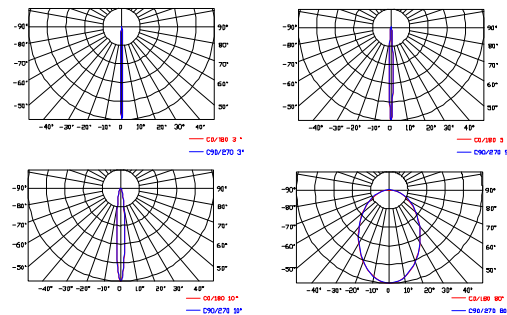

Schematic Diagram of Installation Method

Use M5 screws to fix the lamp mounting bracket to the required position as shown in the figure. After the lamp is firmly installed, adjust the angle of the lamp according to actual needs and then lock the connection screws.

| Electrical parameters | |
|-----------------------|--|

EXC-B330B

General flood light

EXC-B330B floodlight full-color series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC, self-cleaning arc surface floodlights. It could be used for illumination in specific areas or landscape wash lighting, applicable on building facades, bridges, stages, etc.

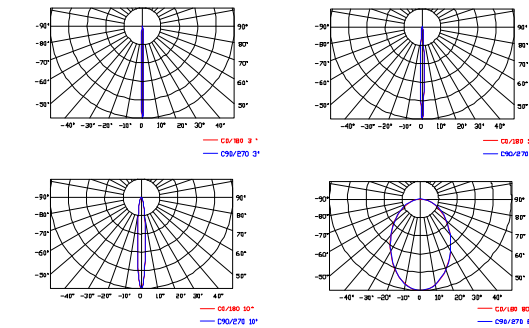

Product Features

- The appearance is concise, with a sense of science and technology
- Horizontal angle adjustment, clear display of adjustment angle
- Curved glass, beautiful, self-cleaning
- Load safety design
- Projection height: 30 meters

Product Size Unit: mm

Light Distribution Curve

| Basic Specifications | |
|-------------------------|--|
| Color | W/RGB/RGBW/RGBACB |
| Light source | SMD R/G/B/W/A/C LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | 8.99Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

Available Models

EXC-B175A

Series M-Multi combination Flood Light

The EXC-B175A floodlight full-color series product is a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC. It could be used for illumination in specific areas or landscape wash lighting , applicable on building facades, bridges, stages, etc.

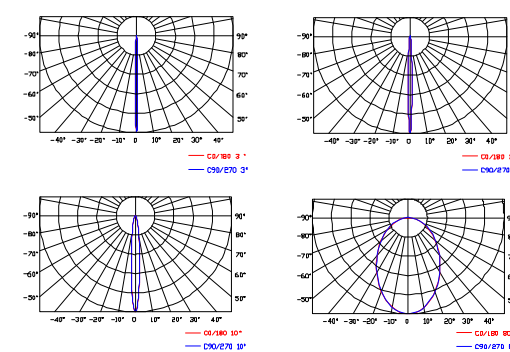

Product Features

- Triangular cross-section design, stable and concise, compact structure
- Curved glass, built-in grille, modular design
- A variety of combinations and mounting brackets to meet different use environments
- Load safety design
- Projection height: 30-100 meters

Product Size Unit: mm

EXC-B246ABL

Flood light

EXC-B246ABL flood light full-color series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC , self-cleaning arc surface floodlights, which could be used for illumination in specific areas or landscape wash lighting , applicable on building facades, bridges, stages, etc.

Product Features

- Unique humanized anti-glare interception design, built-in cylindrical anti-glare grid optics
- Multi-angle light distribution can be realized, and the dark area at the bottom can be completely eliminated
- Unique lens design can achieve special effect requirements such as ultra-narrow, ultra-distant, and ultra-bright
- Innovative pressure balance waterproof design, protection grade Ip66
- Low thermal resistance path heat dissipation design, higher lamp life and reliability
- High corrosion resistance die-cast aluminum and aviation aluminum extruded shell, with excellent heat dissipation and corrosion resistance performance

Product Size Unit: mm

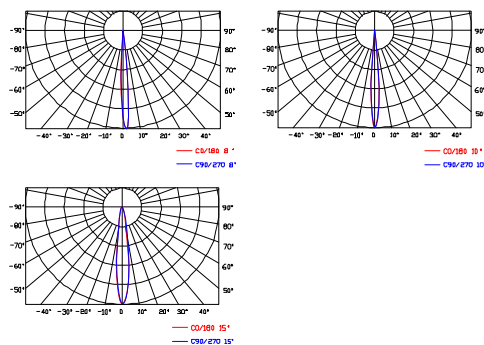

Schematic Diagram of Installation Method

Place the lamp on the carrier to be pre-installed, and confirm the lamp spacing requirements. Tighten the bracket fixing screws on the carrier as shown in the figure, and tighten the mounting base fixing screws. Pay attention to the firm installation and adjust the angle of the lamp to be illuminated.

| Electrical parameters | |

- Multi-angle light distribution can be realized, and the dark area at the bottom can be completely eliminated
- Unique lens design can achieve special effect requirements such as ultra-narrow, ultra-distant, and ultra-bright
- Innovative pressure balance waterproof design, protection grade IP66
- Low thermal resistance path heat dissipation design, higher lamp life and reliability
- High corrosion resistance die-cast aluminum and aviation aluminum extruded shell, with excellent heat dissipation and corrosion resistance performance

Product Size Unit: mm

Light Distribution Curve

Schematic Diagram of Installation Method

Use 4 M10 screws to fix the lamp to the required position as shown in the figure. After the installation is firm, adjust the angle of the lamp according to actual needs and then tighten the connecting screws.

| Basic Specifications | |
|-------------------------|--|
| Color | W/RGB/RGBW |
| Light source | SMD R/G/B/W LED |
| Life | 35,000h |
| Material | High-strength aluminum alloy/tempered glass Weight |
| Weight | 24.8Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |
|-----------------------|--|
| Operating Voltage | AC220V |
| Maximum power | 480W(W),600W(RGBW) |
| Optical parameters | |
| Beam angle | 3°(Convex lens),6°,10°,other angles are optional |
| Controller | |
| Main Controller | EXC-Y220series,EXC-Y880series,EXC-M520series,EXC-5200series,EXC-6000series,EXC-8000series,EXC-10000series..... |
| Sub Controller | EXC-S880,EXC-2905..... |

LINEAR LIGHT SERIES

MAIN TECHNICAL ADVANTAGES OF PRODUCTS

Lighting Control

State feedback: Supportive of the standard RDM and user-defined fault feedback protocol, capable of real-time feedback of such information as lamp operating voltage, temperature, current, power, manufacturer, etc.

High gray scale and high refresh rate: Gray scaling of more than 65536 grades; refresh rate of over 4K; no strobe during video shooting.

Dynamic light distribution: Intelligent dynamic adjustment of lightness by 10%-100% without any loss in gray scale; Adaptive brightness to different seasons and application scenarios without changing gray scale.

Power-on color: Capable of displaying any color in real-time tests under the condition of no signal; allowing emergency commissioning in the early stage of the project.

Wide-voltage power supply: Supportive of DC15-48V safe wide-voltage power supply scheme, completely solving the problem of voltage drop in long-distance power supply of high-rise buildings.

Optical Characteristics

Polarization: Equipped with the optical lens independently developed by EXC, providing comparatively high optical efficacy, wall washing height and consistency, free from color patch.

Wide view distance: Multi-level optical design, improving the optical efficacy and the near-far brightness consistency, an assurance for the harmony, health and comfort of light shows.

Lamp Structure

Thermal drive separation: Unique patented structural design, greatly improving heat dissipation efficiency and reliability.

Harmony with the surroundings in color: the color of the lamp body perfectly blends with the architectural background, weakening the influence of the lamp body on the appearance of the buildings.

Self-cleaning design: Unique lens design, avoiding accumulation of dust and sundries when used outdoors.

Automatic process: Subject to the automatic process design, greatly improving the production capacity, shortening the delivery period and improving the reliability of product quality.

LINEAR LIGHT NAMING RULE

| Product classification | Lamp width | Installation characteristics | Lampshade material | Derivative feature | Product serial code |
|---|--|---|--|--|---|
| U: Conventional linear light D: Uniform linear light | Named after the width of the product, in mm. | A: The lamp body to be installed with independent profile, adopting wire clip technology, waterproofed by the poured-in sealant. B: The lamp body to be installed with independent profiles; adopting a pin box structure, waterproofed by the poured-in sealant (Far distance between LEDs and the lampshade). C: The lamp body to be installed with independent profiles, adopting a pin box structure, waterproofed by the poured-in sealant; asymmetric light emitting structure. N: The lamp body to be installed with independent profiles; adopting a pin box structure, waterproofed by the poured-in sealant (Near distance between LEDs and the lampshade); standard model. T: The lamp body integrated with profile, adopting a pin box structure for installation; waterproofed by the poured-in sealant. | A: PC lampshade B: Aluminum lampshade C: Glass lampshade D: Acrylic lampshade E: Double lampshades | B: Basic model; L: With wings; R: Glare Shield | Codes indicating the sizes of different cross sections having the same width (different height, wing, Glare Shield, etc.), 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, A, B, C... Z |

Linear light-general installation method

Install With Elastic Buckle

Note : When the product is installed vertically, an anti-falling wire rope must be added.

1. Use ST4 self-tapping screws to fix the elastic buckle to the position of the mounting carrier as shown in the figure. The specific spacing is based on the length of the lamp.

2. Clamp the lamp on the elastic buckle, and pay attention to the installation firmly.

3. Finally, connect the male and female ends of the waterproof connector line through the thread as shown in the figure, and pay attention to the installation firmly.

Schematic diagram of section

Remove one side end cap
Schematic diagram of section

Install with Mounting Base

1. Use ST4 self-tapping screws to fix the elastic buckle to the position of the mounting carrier as shown in the figure. The specific spacing is based on the length of the lamp.

2. Clamp the lamp on the mounting base, and then use M4 screws to lock the lamp through the mounting base, pay attention to the installation firmly.

3. Finally, connect the male and female ends of the waterproof connector line through the thread as shown in the figure, and pay attention to the installation firmly.

Install with Rotating Bracket

1. Use ST4 self-tapping screws to fix the lamp mounting bracket to the required position as shown in the figure. Fix the lamp with the mounting bracket through the mounting base, tighten the fixing screws of the mounting base, adjust the angle of the lamp, and then tighten the link screws. Pay attention to the installation firmly.

3. Finally, connect the male and female ends of the waterproof connector line through the thread as shown in the figure, and pay attention to the installation firmly.

EXC-CU20

C Series-Preferred linear lights

EXC-CU20 series products are with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. SMD liner light source, width only 20mm. They can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting, and small-range wall washing.

EXC-CU20CAB0

EXC-CU20CAB2

EXC-CU20CBB0

Product Features

- Only 20 mm wide
- New-generation DMX512 parallel bus technology
- Fully sealed and waterproof design with adhesive imported from Germany
- Heat dissipation design ensured by aluminum housing and low thermal resistance path
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

EXC-U20

N Series-Linear Light

EXC-U20 full-color series consists of full-color SMD linear lights equipped with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. Full-color SMD linear lamp with a width of only 20mm. Each strip includes 8 pixels, and each pixel can realize 65536 grades gray scale changing; featuring simple and reliable installation, they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting, and small-range wall washing.

Product Features

- Only 20 mm wide

EXC-U20A

A Series-Linear Light

EXC-U20A series products are with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. SMD uniform light ultra-thin line light source, width 20mm, thickness only 23mm. They can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting.

Product Features

- Only 20 mm wide, 23mm height
- Fully sealed and waterproof design with adhesive imported from Germany
- Heat dissipation design ensured by aluminum housing and low thermal resistance path
- Extremely uniform light effect, soft and uniform, consistent light color
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

Light Distribution Curve

Product Size Unit: mm

| Basic Specifications | |
|-------------------------|---|
| Color | W |
| Light source | SMD W LED |
| Life | 35,000h |
| Material | High-strength aluminum alloy/PC lampshade |
| Weight | 0.55Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

| Electrical parameters | |

Note 1: LED brand: CREE/OSRAM/LUMILEDS/ /Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-U20S

S Series-Linear Light

EXC-U20S series products are with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. SMD uniform light ultra-thin line light source, width 23mm, thickness only 29.5mm. They can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting.

Product Features

- Only 23 mm wide, 29.5mm height
- New-generation DMX512 parallel bus technology
- Fully sealed and waterproof design with adhesive imported from Germany
- Heat dissipation design ensured by aluminum housing and low thermal resistance path
- Extremely uniform light effect, soft and uniform, consistent light color
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

EXC-U20F

F Series-Linear Light

EXC-U20F series products are with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. SMD liner light source, width only 20mm. They can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting, and small-range wall washing.

Product Features

- Only 20 mm wide, Full structure waterproof design
- Ultra-white high-transmittance toughened glass lampshade, extreme light effect
- Heat dissipation design ensured by aluminum housing and low thermal resistance path
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

EXC-U25F

F Series-Linear Light

EXC-U25F full-color series consists of full-color SMD linear lights equipped with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. Full-color SMD linear lamp with a width of only 20mm. Each strip includes 8 pixels, and each pixel can realize 65536 grades gray scale changing; featuring simple and reliable installation, they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting, and small-range wall washing.

Product Features

- Only 25 mm wide, Full structure waterproof design
- New-generation DMX512 parallel bus technology
- Ultra-white high-transmittance toughened glass lampshade, extreme light effect
- Heat dissipation design ensured by aluminum housing and low thermal resistance path
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

EXC-U22

N Series-Linear Light

EXC-U22 full-color series consists of full-color SMD linear lights equipped with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. Full-color SMD linear lamp with a width of only 20mm. Each strip includes 8 pixels, and each pixel can realize 65536 grades gray scale changing; featuring simple and reliable installation, they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting, and small-range wall washing.

EXC-U22NAB0

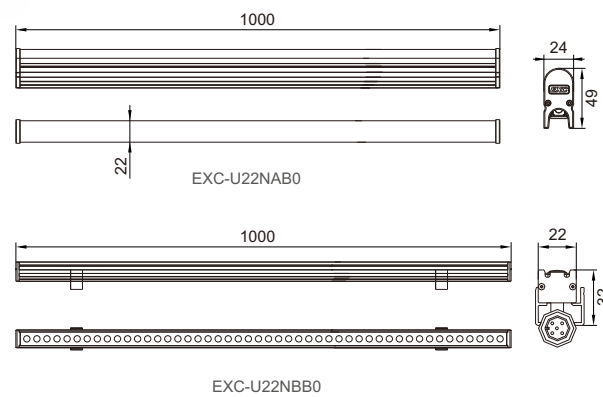

EXC-U22NBB0

Product Features

- A curved surface emits light evenly, and the B aluminum cover has a wide viewing angle to emit light
- New-generation DMX512 parallel bus technology
- Fully sealed and waterproof design with adhesive imported from Germany
- Heat dissipation design ensured by aluminum housing and low thermal resistance path
- Outdoor lighting protection and electrostatic discharge (ESD) protection design

EXC-U40

N Series-Linear Light

EXC-U40 full-color series consists of full-color SMD linear lights equipped with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. Full-color SMD linear lamp with a width of only 40mm. Each strip includes 8 pixels, and each pixel can realize 65536 grades gray scale changing; featuring simple and reliable installation, they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting, and small-range wall washing.

EXC-U16/U20/U22/U30/U37

ND Series-Uniform linear Light

The ND series consists of uniform-light strip lights specially designed by EXC for outdoor landscape lighting and varying in width (16mm, 20mm, 22mm, 30mm, and 37mm). Each strip includes multiple pixels, and each pixel can realize 65536 grades gray scale changing; featuring simple and reliable installation, they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting.

Product Features

- Opal acrylic, uniform lighting on three sides, with soft light
- Seamless splicing, and no dark area at the splicing
- DMX512 parallel control, ensuring stability and reliability
- Multiple mounting methods available for customers, including conventional mounting seat, elastic buckles, etc.
- Support DC48V long-distance power supply technology

EXC-U60/U80/U100/U300

AD Series-Side-emitting Linear Light

The AD series consists of Lateral linear lights equipped with a narrow aluminum-profile housing and specially designed by EXC for outdoor landscape lighting. The lamp can be completely integrated with the building, it does not affect the appearance of the building during the day, and it is truly invisible. Featuring simple and reliable installation, they can be used for extra-large area display of building facades, contour shaping, interior and exterior surface decoration lighting.

Product Features

- Ultra-thin design with a thickness of only 23 mm
- Concealed design, completely integrated with buildings
- Heat dissipation design ensured by aluminum housing and low thermal resistance path
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Ceiling suspension wire design, ensuring simple and convenient installation.
- All-aluminum metal, ultra-thin design, high-grade appearance and beautiful structure.

EXC-HY137 Projection Light X Series- Stars Light

EXC-HY137 Stars series can realize the visual effect of stars with the moon, and the built-in microwave sensor can realize the intelligent induction interaction with people. In the jumping mode, the scene of stars surging and fireflies dancing can be created. When people leave, the intelligence switches to a more energy-efficient hibernation mode to achieve light and dark breathing changes.

HY137B

HY137A

Product Features

- Realize the effect design of stars and dark moon
- The intelligent switch design between hibernation and jump mode is realized
- Achieve breathing changes and create a tranquil and soothing atmosphere
- Achieve jump change, make people feel passion and active design
- ED display level weather resistance, low current design

EXC-Y20

Projection Light X Series- Star Effect Light

The Y20 series laser special effects lights can achieve a visual effect of the starry sky, and also have brightness changes to create scenes of twinkling stars or fireflies dancing. They can also be connected to interactive devices to achieve the effect of lights turning on when people come and turning off when people leave.

Product Features

- Compact and lightweight body design
- Rotating light dots
- Breathing and flashing effects of light dots
- Colorful variations
- Can be connected to an interactive system

EXC-SL05/SL10

Projection Light S Series- Water Effect Light

EXC-SL05/SL10 series is designed for indoor and outdoor landscape lighting, supporting 50~100W various power specifications,RGBW full color transformation, can be used for indoor and outdoor landscape lighting needs to create dynamic water pattern effect of the scene.

Product Features

- The newest generation technology DMX512 parallel bus design
- RGBW full color dynamic water ripple effect
- High strength aluminum alloy, high quality assembly process, stable and reliable
- Efficient heat conduction and heat dissipation system
- Anti-corrosion, moisture-proof design, ≥IP65 dustproof and waterproof
- The installation of rotating bracket is convenient and fast

Product Size Unit: mm

| Physicals | |
|---------------------|--------------|
| Housing | Aluminum |
| Installation | Bracket |
| Weight | 4kg/8kg |
| IP Rated | IP65 |
| Lifespan | >20000 hrs |
| Ambient Temperature | -20°C~ +45°C |
| Ambient Humidity | 10%~90% |
| Photometrics | |
| Light Source | LED |
| Color Temperature | RGBW |
| Beam Angle | Scattering |
| Effect | Water Wave |

| Electrics | |
|-----------------------------|--|
| Voltage | AC110~240V |
| Control Protocol | Auto/DMX512 |
| Electrical Shock Protection | Class I |
| Power Consumption | 50W/100W |
| Controller | |
| Main Controller | EXC-Y220series,EXC-Y880series,EXC-M520series,EXC-5200series,EXC-6000series,EXC-8000series,EXC-10000series..... |
| Sub Controller | EXC-S880,EXC-2905..... |

Available Models

| Product model | Working voltage | Power | Light source | Effect | Control protocol | Material |
|---------------|-----------------|-------|--------------|---------------|------------------|----------------|
| SL05 | AC110~240V | 50W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| SL10 | AC110~240V | 100W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |

Note 1: LED brand: CREE/OSRAM/LUMILEDS/ /Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-S05/S08/T05/T08

Projection Light T Series- Water Effect /Gobo Light

EXC-S05/S08/T05/T08 series of LED pattern lights designed for indoor and outdoor landscape lighting, single pattern static/rotating application design, can be used for indoor and outdoor landscape lighting needs a variety of single LOGO, pattern effect application scenarios.

Product Features

- Full-color LOGO and pattern projection design
- Static and rotating projection effects
- High strength aluminum alloy, high quality assembly process, stable and reliable
- Optional remote control, easy to use
- Anti-corrosion, moisture-proof design, ≥IP65 dustproof and waterproof
- The installation of rotating bracket is convenient and fast

Product Size Unit: mm

| Electrics | |
|-----------------------------|--|
| Voltage | AC110~240V |
| Control Protocol | Auto/DMX512 |
| Electrical Shock Protection | Class I |
| Power Consumption | 50W/80W |
| Controller | |
| Main Controller | EXC-Y220series,EXC-Y880series,EXC-M520series,EXC-5200series,EXC-6000series,EXC-8000series,EXC-10000series..... |
| Sub Controller | EXC-S880,EXC-2905..... |

| Physicals | |
|---------------------|--|
| Housing | Aluminum |
| Installation | Bracket |
| Weight | 4kg |
| IP Rated | IP65 |
| Lifespan | >20000 hrs |
| Ambient Temperature | -20°C~ +45°C |
| Ambient Humidity | 10%~90% |
| Photometrics | |
| Light Source | LED |
| Color Temperature | 7500K |
| Beam Angle | 10° /20° /30° /45° /60° |
| Effect | Water Wave with 6 colors (S05/S08) 1 Gobo (T05/T08) |

Available Models

| Product model | Working voltage | Power | Light source | Effect | Control protocol | Material |
|---------------|-----------------|-------|--------------|---------------|------------------|----------------|
| S05 | AC110~240V | 50W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| S08 | AC110~240V | 80W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| T05 | AC110~240V | 50W | LED | 1 Gobo | Auto/DMX512 | Aluminum+Glass |
| T08 | AC110~240V | 80W | LED | 1 Gobo | Auto/DMX512 | Aluminum+Glass |

Note 1: LED brand: CREE/OSRAM/LUMILEDS / Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-S15/S20/T15/T20

Projection Light T Series- Water Effect /Gobo Light

EXC-S15/S20/T15/T20 series of LED pattern lights designed for indoor and outdoor landscape lighting, single pattern static/rotating application design, can be used for indoor and outdoor landscape lighting needs a variety of single LOGO, pattern effect application scenarios.

Product Features

- Full-color LOGO and pattern projection design
- Static and rotating projection effects
- High strength aluminum alloy, high quality assembly process, stable and reliable
- Optional remote control, easy to use
- Anti-corrosion, moisture-proof design, ≥IP65 dustproof and waterproof
- The installation of rotating bracket is convenient and fast

Product Size Unit: mm

| Electrics | |
|-----------------------------|--|
| Voltage | AC110~240V |
| Control Protocol | Auto/DMX512 |
| Electrical Shock Protection | Class I |
| Power Consumption | 50W/100W |

| Sub Controller | EXC-S880,EXC-2905..... |

| Physicals | |
|---------------------|---|
| Housing | Aluminum |
| Installation | Bracket |
| Weight | 5kg |
| IP Rated | IP65 |
| Lifespan | >20000 hrs |
| Ambient Temperature | -20°C~ +45°C |
| Ambient Humidity | 10%~90% |
| Photometrics | |
| Light Source | LED |
| Color Temperature | 7500K |
| Beam Angle | 10° /20° /30° /45° /60° |
| Effect | Water Wave with 6 colors (S15/S20) 6 Gobos (T15/T20) |

Available Models

| Product model | Working voltage | Power | Light source | Effect | Control protocol | Material |
|---------------|-----------------|-------|--------------|---------------|------------------|----------------|
| S15 | AC110~240V | 150W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| S20 | AC110~240V | 200W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| T15 | AC110~240V | 150W | LED | 6 Gobos | Auto/DMX512 | Aluminum+Glass |
| T20 | AC110~240V | 200W | LED | 6 Gobos | Auto/DMX512 | Aluminum+Glass |

Note 1: LED brand: CREE/OSRAM/LUMILEDS / Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-S30/S40/T30/T40

Projection Light T Series- Water Effect /Gobo Light

EXC-S30/S40/T30/T40 series of LED pattern lights designed for indoor and outdoor landscape lighting, single pattern static/rotating application design, can be used for indoor and outdoor landscape lighting needs a variety of single LOGO, pattern effect application scenarios.

Product Features

- Full-color LOGO and pattern projection design
- Static and rotating projection effects
- High strength aluminum alloy, high quality assembly process, stable and reliable
- Optional remote control, easy to use
- Anti-corrosion, moisture-proof design, ≥IP65 dustproof and waterproof
- The installation of rotating bracket is convenient and fast

Product Size Unit: mm

| Electrics | |
|-----------------------------|--|
| Voltage | AC110~240V |
| Control Protocol | Auto/DMX512 |
| Electrical Shock Protection | Class I |
| Power Consumption | 300W/400W |
| Controller | |
| Main Controller | EXC-Y220series, EXC-Y880series, EXC-M520series, EXC-5200series, EXC-6000series, EXC-8000series, EXC-10000series..... |
| Sub Controller | EXC-S880, EXC-2905..... |

| Physicals | |
|---------------------|---|
| Housing | Aluminum |
| Installation | Bracket |
| Weight | 7.5kg |
| IP Rated | IP65 |
| Lifespan | >20000 hrs |
| Ambient Temperature | -20°C~ +45°C |
| Ambient Humidity | 10%~90% |
| Photometrics | |
| Light Source | LED |
| Color Temperature | 7500K |
| Beam Angle | 10° /20° /30° /45° /60° |
| Effect | Water Wave with 6 colors (S30/S40) 6 Gobos (T30/T40) |

Available Models

| Product model | Working voltage | Power | Light source | Effect | Control protocol | Material |
|---------------|-----------------|-------|--------------|---------------|------------------|----------------|
| S30 | AC110~240V | 300W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| S40 | AC110~240V | 400W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| T30 | AC110~240V | 300W | LED | 6 Gobos | Auto/DMX512 | Aluminum+Glass |
| T40 | AC110~240V | 400W | LED | 6 Gobos | Auto/DMX512 | Aluminum+Glass |

Note 1: LED brand: CREE/OSRAM/LUMILEDS / Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-S40Z/T40Z

Projection Light T Series- Zoom Water Effect /Gobo Light

EXC-S40Z/T40Z series of LED pattern lights designed for indoor and outdoor landscape lighting, single pattern static/rotating application design, can be used for indoor and outdoor landscape lighting needs a variety of single LOGO, pattern effect application scenarios.

Product Features

- Full-color LOGO and pattern projection design
- Static and rotating projection effects
- High strength aluminum alloy, high quality assembly process, stable and reliable
- Optional remote control, easy to use
- Anti-corrosion, moisture-proof design, ≥IP65 dustproof and waterproof
- The installation of rotating bracket is convenient and fast

Product Size Unit: mm

| Physicals | |
|---------------------|---|
| Housing | Aluminum |
| Installation | Bracket |
| Weight | 15kg |
| IP Rated | IP65 |
| Lifespan | >20000 hrs |
| Ambient Temperature | -20°C~ +45°C |
| Ambient Humidity | 10%~90% |
| Photometrics | |
| Light Source | LED |
| Color Temperature | 7500K |
| Beam Angle | 10°~50° Zoom |
| Effect | Water Wave with 6 colors (S40Z) 6 Gobos (T40Z) |

| Electrics | |
|-----------------------------|--|
| Voltage | AC110~240V |
| Control Protocol | Auto/DMX512 |
| Electrical Shock Protection | Class I |
| Power Consumption | 400W |
| Controller | |
| Main Controller | EXC-Y220series, EXC-Y880series, EXC-M520series, EXC-5200series, EXC-6000series, EXC-8000series, EXC-10000series..... |

Available Models

| Product model | Working voltage | Power | Light source | Effect | Control protocol | Material |
|---------------|-----------------|-------|--------------|---------------|------------------|----------------|
| S40Z | AC110~240V | 400W | LED | Dynamic Water | Auto/DMX512 | Aluminum+Glass |
| T40Z | AC110~240V | 400W | LED | 6 Gobos | Auto/DMX512 | Aluminum+Glass |

Note 1: LED brand: CREE/OSRAM/LUMILEDS / Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-S60Z/T60Z

Projection Light T Series- Zoom Water Effect /Gobo Light

EXC-S60Z/T60Z series of LED pattern lights designed for indoor and outdoor landscape lighting, single pattern static/rotating application design, can be used for indoor and outdoor landscape lighting needs a variety of single LOGO, pattern effect application scenarios.

Product Features

- Full-color LOGO and pattern projection design
- Static and rotating projection effects
- High strength aluminum alloy, high quality assembly process, stable and reliable
- Optional remote control, easy to use
- Anti-corrosion, moisture-proof design, ≥IP65 dustproof and waterproof
- The installation of rotating bracket is convenient and fast

Product Size Unit: mm

| Physicals | |
|---------------------|---|
| Housing | Aluminum |
| Installation | Bracket |
| Weight | 16kg |
| IP Rated | IP65 |
| Lifespan | >20000 hrs |
| Ambient Temperature | -20°C~ +45°C |
| Ambient Humidity | 10%~90% |
| Photometrics | |
| Light Source | LED |
| Color Temperature | 7500K |
| Beam Angle | 10°~50° Zoom |
| Effect | Water Wave with 6 colors (S60Z) 6 Gobos (T60Z) |

| Electrics | |
|-----------------------------|--|
| Voltage | AC110~240V |
| Control Protocol | Auto/DMX512 |
| Electrical Shock Protection | Class I |

Note 1: LED brand: CREE/OSRAM/LUMILEDS/ /Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-PJ30

Projection Light Y Series- Interactive Projector

The overall size of the projector is compact, making it more suitable for use in cultural and tourism scenic spots, outdoor parks, city lighting, and other occasions. The reduction in volume means highly integrated design and excellent heat dissipation performance. The housing has also reached an IP65 level of dustproof and waterproof protection. With the use of high quality fans, there is no need to worry about heat dissipation problems even in hot summers.

Product Features

- Operating System
The built-in Android operating system is more stable and easier to operate than traditional PC systems. It can be installed and debugged without requiring specialized knowledge.
- Capturing System
The device software system uses an independently developed motion capture system with precise and sensitive motion capture. The adjustment process is simple and convenient, and debugging can be completed by a single person in just ten minutes.
- Built-in Programs
There are more than 60 interactive 3D programs developed by Unity, covering various content such as national style, popular amusement, cartoon animation, and educational puzzles. They can be perfectly applied in night tours of scenic areas, cultural tourism light shows, commercial plazas, and outdoor lighting.
- Seamless Splicing
It supports seamless splicing and integration of multiple devices, and can be easily installed and debugged through a remote control.

Product Size Unit: mm

| Physicals | |
|---------------------|-----------------|
| Housing | Aluminum |
| Installation | Bracket |
| Weight | 5.2kg |
| IP Rated | IP65 |
| Lifespan | >20000 hrs |
| Ambient Temperature | 0°C~ +45°C |
| Ambient Humidity | 10%~60% |
| Photometrics | |
| Light Source | Laser 3LCD*0.59 |
| Brightness | 3000 ANSI Lumen |
| Resolution Ratio | WXGA (1280*800) |
| Contrast Ratio | 20000:1 |
| Keystone Correction | V40%(M+A) |
| Throw Ratio | 1.04:1 |
| Speaker | 5W*2 |
| Motion Sensor | Infrared Camera |
| Interactive Program | 60+ |

Tree Light Series

EXC-BC155

Landscape Lighting Series-Tree Light

EXC-BC155 lighting tree lamp series is a high-strength aluminum alloy shell and high-power projection lamp specially designed for outdoor landscape lighting. It can be used for color brushing in specific lighting areas or landscapes, and can be used in ancient buildings, landscape gardens, etc.

BC155ARL/BC155ARH

BC155BRL/BC155BRH

Product Size Unit: mm

BC155ARL/BC155ARH

Product Features

- A new generation of structural waterproof design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- The adjustable angle is 0° ~ 15°, and the glass surface is inclined by 5°
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Projection height: 1-5m

Light Distribution Curve

Schematic Diagram of Installation Method

| Basic Specifications | |
|-------------------------|--|
| Color | W/RGB/RGBW |
| Light source | SMD R/G/B /W / RGBW 4in1 LED |
| Life | 35,000h |
| Material | High-strength die-cast aluminum/tempered glass |
| Weight | 2.33Kg |
| Working conditions | |
| Operating temperature | -40°C ~ 50°C |
| Storage temperature | -40°C ~ 70°C |
| Protection rating | IP66 |
| Application environment | Outdoor |

EXC-ZS240/325

Landscape Lighting Series-Tree Light

EXC-ZS240/325 Light tree lamp are high power outdoor landscape flood lighting fixture with high strength aluminum alloy housing by EXC-LED. Each lighting fixture can be used for accent lighting or flood lighting, such as ancient buildings, landscape garden, etc.

Product Features

- The newest generation technology: DMX512 parallel bus design
- A new generation of structural waterproof design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Load safety design
- Integrated ID design, more harmonious application
- Beam angle 6° ~ 80° multiple adaptation options

Window Light Series

EXC-T60A

Landscape Lighting Series-Window Light

EXC-T60ABL window lamp series are high power outdoor landscape LED wall washer with high strength aluminum alloy housing by EXC-LED. With Unique appearance design, mainly used for Special area lighting light window, lighting up the whole window, to create special lighting effect.

Product Features

- The newest generation technology: DMX512 parallel bus design
- Three optical design, strong sense of beam
- Ultra-narrow strip window light spot
- Low thermal resistance path heat dissipation design
- Outdoor lightning protection and electrostatic (ESD) special protection design

Product Size Unit: mm

Schematic Diagram of Installation Method

Use M6 expansion screws and fix the mounting base to the required position as shown in the figure. The specific spacing shall be in accordance with the length requirements of the light. Mounting seat fixing screws.

Light Distribution Curve

| Basic Specifications | |
|-------------------------|---|
| Color | W |
| Light source | SMD W LED |

EXC-T110A

Landscape Lighting Series-Window Light

EXC-T110ABL Snail Window Wall washer light are a single color LED light with extruded aluminum alloy housing, which are designed for window lighting by EXC-T110ABLLLED. With Unique appearance design, mainly used for Special area lighting light window. lighting up the whole window, to create special lighting effect.

Product Features

- Bionic design, vivid and interesting
- It has a variety of dynamic models, including the creeping mode of window corners, the straight-line mode in windows and the climbing mode of window corners, to create a lively and happy scene
- The arched shape can well shield the dazzling light
- Ultra-narrow strip optical effect, uniform spot

Schematic Diagram of Installation Method

1. Loosen the mounting screws
2. Take out the mounting bracket; As the picture

3. Screw the M4 screws into the wall to fix the mounting bracket, as the picture.

4. Push the bracket forward and clamp the bracket into the card slot, as the picture

The bracket is flush with the card slot, indicating that the installation is completed.

5. Tighten the mounting screws as the picture

Corrugated Light Series

EXC-WL

Landscape Lighting Series-Corrugated Light

EXC-WL two-way corrugated lighting series products are professional lamps designed by EXC-LED for the ancient buildings. Two sides are illuminated, one side is large to wash and brighten the tile surface, and the other side is used as a full-color lamp to outline the outline of the eaves, and the full-color part Each pixel can achieve 256-level grayscale changes; it is very suitable lighting for ancient buildings, the outline of the ditch, the installation is simple and reliable

Product Features

- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High thermal conductivity transformer grade imported glue, fully potted and waterproof design
- Outdoor lightning protection and electrostatic (ESD) special protection design
- Display-level weather resistance, low voltage constant current design
- Projection height: 1-3 meters

Product Size Unit: mm

Schematic Diagram of Installation Method

1. First use structural glue to glue the mounting parts on the tiles

2. After the mounting parts are glued and hardened, fix the lamp on the mounting part with a nut, as shown in the figure.

EXC-WL97D

Landscape Lighting Series-Corrugated Light

EXC-WL97DRL series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by EXC-LED, which can be used in specific lighting areas or landscape coloring, and applied to landscape gardens, etc.

Product Features

- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- Shape bionic design, ingenious combination of form and function
- Outdoor lightning protection and electrostatic (ESD) special protection design
- A variety of mounting brackets to adapt to different environments

Product Size Unit: mm

Schematic Diagram of Installation Method

After the mounting part is firmly bonded, fix the lamp on the mounting part with a nut, as shown in the figure

Step light Series

EXC-BD135A

Landscape Lighting Series-Step light A series

EXC-BD135 product is an LED walkway lamp specially designed for outdoor landscape lighting. It can be used for color brushing in specific lighting areas or landscapes. It can be applied to various walkway scenes. A variety of beam angle projection and washing effects are optional.

Product Features

- New Generation DMX512 Parallel Bus Technology Design
- Support DC48V long-distance power supply technology
- Simple and compact, easy to install
- Low thermal resistance path heat dissipation design
- Special protection design for outdoor lightning protection and static electricity (ESD)

Product Size Unit: mm

Schematic Diagram of Installation Method

Place the lamp in the preset position of the mounting carrier and tighten the fixing screws.

EXC-BD55T

Landscape Lighting Series-Step light T series

The EXC-BD55 product is a high-intensity aluminum alloy exterior LED step light specially designed for outdoor lighting. It can be used in specific lighting areas and is equipped with a human body sensor module. It is suitable for various cultural and tourism lighting and scene lighting.

EXC-BD110S

Landscape Lighting Series-Step light A series

EXC-BD110S is a step walkway light designed by EXC-LED for outdoor landscape lighting. It has a triangular fitting structure specially designed for steps and supports two-way installation. It can be used for the washing of steps and walks in cultural tourism landscape lighting. Brightening application.

Product Features

- Professional comb-shaped convection heat dissipation design
- Human body induction technology, support induction control
- Embedded installation, reasonable design and convenient low thermal resistance path heat dissipation design
- Special protection design for outdoor lightning protection and static electricity (ESD)

Schematic Diagram of Installation Method

Step 1: Make a hole on the mounting surface and insert the embedded screw

Step 2: Put the embedded part of the lamp installation into the pre-opened installation hole and fix it with two screws

Step 3: After connecting the electrical connection line, install the lamp into the embedded part, and fix the installation with two screws

| Product model | Working voltage | Power | Light source | Luminous flux | Angle | Effect | Effect amount | Control protocol | Channels |
|---------------|-----------------|-------|--------------|---------------|--------|--------|---------------|------------------|----------|
| BD55TBH | AC220V | 9W | 36xW | ≥100° | ON/OFF | / | Aluminum + PC | ≥80 lm/w | Note 1 |

Note 1: LED brand: CREE/OSRAM/LUMILEDS/ Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

Product Features

- Special triangular fitting design for steps, compatible with two-way installation of single lamp
- Building surface texture, strong sense of integration
- Built-in honeycomb anti-glare design
- Maximum power 6W, single outlet design
- 6°~80°A variety of beam angles are available
- High-quality assembly design, protection ≥IP66

Schematic Diagram of Installation Method

Step 1: The figure shows the installation of steps with a slope of 30° and a height of 145mm. Choose a suitable right-angle side to place the lamp, and then use 2 M4 screws to fix the lamp to a suitable position on the left side of the step as shown in the figure.

LED Tree Light Series

EXC-BS400

Landscape Lighting Series-LED Tree Light

The EXC-BS400 tree hug lamp series products are a high-strength aluminum alloy shell specially designed for outdoor landscape lighting by AICA, high-power tree hug floodlights, which can be used in specific lighting areas or landscape coloring, and are used in landscape gardens, etc.

Product Features

- A new generation of DMX512 parallel bus technology design, a new generation of structural waterproof design
- High-strength aluminum lamp body with low thermal resistance path heat dissipation design
- High reliability modular design
- Special protection design for outdoor lightning protection and static electricity (ESD)
- Load safety design

Product Size Unit: mm

Schematic Diagram of Installation Method

Step 1: Fix the high bracket assembly on the bottom surface of the lamp with two M5 combination screws
 Step 2: As shown in the picture, surround the tree and connect each luminaire with M5 combination screws.
 Step 3: Insert the high bracket of the luminaire into the ground as shown in the picture and fix it firmly

Light Distribution Curve

Panel Light Series

EXC-FS500

Landscape Lighting Series-Panel Light

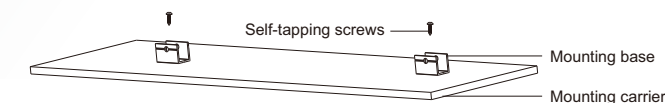

EXC-FS500 Panel light full-color series products are the latest Facebook series lamps developed by EXC-LED; when the lamps are not bright, they are transparent, which does not affect the lighting and visual effects, and becomes a crystal clear color block after lighting. Each lamp is an independent pixel, and is equipped with a high-strength aluminum alloy base, which is simple and reliable to install, and is mainly used for glass curtain wall lighting.

Product Features

- The lamp body is transparent when the lamp is not on, and does not affect the glass lighting
- Imported homogenizing plate, uniform light emission
- Imported glue full potting waterproof design
- Special protection design for outdoor lightning protection and static electricity (ESD)
- The best solution for glass screen wall lighting

Schematic Diagram of Installation Method

1. Use ST4 self-tapping screws to fix the mounting base to the mounting carrier as shown in the figure. The specific spacing is based on the length of the lamp.

2. Clamp the lamp on the mounting base, and then use M4 screws to lock the lamp on mounting base, pay attention to the installation firmly

3. Finally, connect the male and female heads of the waterproof wiring with threads as shown in the figure, and pay attention to the installation firmly

Floor Tile Light Series

EXC-SMG

Landscape Lighting Series-Floor tile light

EXC-SMG is a high-strength square surface light-emitting lamp specially designed for outdoor landscapes by EXC-LED. It has a modular design and can be used in any combination of puzzles or a single independent application. The lamp adopt high-strength die-cast aluminum and tempered glass. Waterproof design meets the requirements of P67 application, each lamp is an independent pixel; especially suitable for personalized applications such as garden squares, pedestrian streets, courtyards, dance halls, etc., and can also be used for built-in wall lamp lamps

Product Features

- Modular design, any combination
- Double waterproof design
- A new generation of parallel bus control technology
- Dual redundant address protection

Product Size Unit: mm

Guardrail Lighting Series

EXC-W50G

Landscape Lighting Series-Guardrail lighting

EXC-W50G series product is an outdoor high-power guardrail lamp made of high-strength aluminum alloy and specially designed for outdoor road lighting. It can be used in specific road lighting scenarios that meet needs. The length of the lamp can be provided in a variety of specifications.

Product Features

- Patented comb-shaped convection heat dissipation design
- Low thermal resistance path heat dissipation design
- Special protection design for outdoor lightning protection and static electricity (ESD)
- New generation of anti-glare structure design, better anti-glare effect
- Excellent optical design, showing uniform and soft road lighting effect

Product Size Unit: mm

Schematic Diagram of Installation Method

Choose M6 expansion screws, and fix the mounting base to the required position as shown in the figure. The specific spacing is based on the length of the lamp. Mounting base fixing screws.

| Basic Specifications | |
|-------------------------|--|
| Color | W |
| Light source | SMD W LED |

 Solar point light Series

EXC-TP120

Landscape Lighting Series-Solar point light

The EXC-TP120WZS solar wireless charging point light series is designed for outdoor landscape lighting by EXC-LED. Utilize solar energy to convert into electric energy, no need to wire, and it will light up normally for a week even if it is continuous rainy days. ZIGBEE network communication, GPS synchronization effect, unique address, can realize single-point control. Cooperate with EXC-GSL-1000E IoT gateway, support platform program distribution and execute timing strategy according to latitude and longitude. Each luminous point is like a starry sky in the sky, with built-in 8 effects such as constant light, flashing, and color change. It is widely used in cities and parks. It is easy to install, low cost, and basically no post-maintenance.

Product Features

- New generation Zigbee wireless ad hoc network technology design, GPS synchronization
- Free adjustment of solar panel angle
- Support low-power standby mode,
- Long work time
- Lightweight and beautiful, small wind load design
- Support built-in effect playback
- Support wireless upgrade, support remote program delivery
- Electrostatic (ESD) protection and EMC design

Product Size Unit: mm

Schematic Diagram of Installation Method

| Basic Specifications | |
|-------------------------|--|
| Color | RGB |
| Light source | SMD RGB 3in1 LED |
| Life | Cycle life under floating charge ≥2000 times of charge and discharge |

Note 1: LED brand: CREE/OSRAM/LUMILEDS/ /Taiwan/Mainland Note 2: The above optical parameter > 2700K; CREE/OSRAM/LUMILEDS.

EXC-TP245

Landscape Lighting Series-Solar floating point light

The EXC-TP245WZS series product is a solar floating point lamp specially designed for outdoor landscape lighting by EXC-LED. It is used in various cultural and tourism lighting scenes, supports floating applications, land poles, wall surfaces, and uses solar wireless Power supply technology supports light control and time control.

Product Features

- High-efficiency and low-power design, long-lasting and reliable battery life
- Lightweight and beautiful, strong sense of integration
- Support light control, time control control
- Support multiple application forms of floating on water surface, pole on land surface, and wall mounting
- Electrostatic (ESD) protection and EMC design

Schematic Diagram of Installation Method

Solar floating point light--pole installation

1. Use M4 expansion screws to fix the mounting base to the required position as shown in the figure
2. Mounting base fixing screws

Product Size Unit: mm

Solar floating point light--water surface installation

Solar floating light --wall installation

1. Fix the mounting bracket to the wall with expansion screws
2. Snap the light directly into the mounting frame
3. Screw on the mounting frame to prevent the lamp from falling off

| Basic Specifications | |
|-------------------------|--|
| Color | RGB |

04

Special Display Series

- Flexible LED curtain screen series
- Grille screen series

EXC Flexible LED Curtain Screen

Special Display-Flexible LED Curtain Screen

EXC-P55 flexible LED curtain screen series product is a flexible grid screen specially designed for outdoor landscape lighting by EXC-LED, with a pixel pitch of 55mm. It can be used for outdoor media facade display, supports modular customization, and is simple and reliable to install.

Product Features

- New Generation DMX512 Parallel Bus Technology Design
- Integrated snap-on type no joint anti-pull connection design
- Germany imported high thermal conductivity adhesive full potting waterproof design
- Flexible structure design, adapt to a variety of different media facade display applications
- Special protection design for outdoor lightning protection and static electricity (ESD)

e.g: P55 Flexible LED curtain screen

EXC-LED Grille screen

Special Display-LED Grille screen

EXC-LED grille screen series products are an aluminum profile LED grille screen specially designed for outdoor landscape lighting by EXC-LED; the product is light-weight, high-transparent, and suitable for media advertising such as glass curtain walls, building exterior walls and outdoor large screens application.

E.g: GS1616B

Schematic Diagram of Installation Method

Step 1: Fix the installation profile on the installation

Step 2: Fix the buckle base on the mounting profile with two M8 screws

Step 3: Put the bottom of the module into the buckle base and push to the installation position as indicated by the arrow until the top lock tongue snaps into the installation profile.

Step 4: After the module card holder is installed in the position, tighten the limit screw, and the installation of a single module is completed.

Step 5: Connect all electrical connection wires, and the installation is complete.

E.g: GS1616B

Product Features

- A new generation of synchronous control system
- Low power consumption, high transparency design
- Lightweight, ultra-thin, small wind load design
- Modular, waterproof and removable structure, convenient and quick maintenance
- No steel structure, can be installed front and rear, outdoor lightning protection and electrostatic (ESD) special protection design
